Blockbusting In Baltimore The Edmondson Village Story:

Blockbusting in Baltimore W. Edward Orser, 2021-10-21 This innovative study of racial upheaval and urban transformation in Baltimore Maryland investigates the impact of blockbusting a practice in which real estate agents would sell a house on an all white block to an African American family with the aim of igniting a panic among the other residents These homeowners would often sell at a loss to move away and the real estate agents would promote the properties at a drastic markup to African American buyers In this groundbreaking book W Edward Orser examines Edmondson Village a west Baltimore rowhouse community where an especially acute instance of blockbusting triggered white flight and racial change on a dramatic scale Between 1955 and 1965 nearly twenty thousand white residents who saw their secure world changing drastically were replaced by blacks in search of the American dream By buying low and selling high playing on the fears of whites and the needs of African Americans blockbusters set off a series of events that Orser calls a collective trauma whose significance for recent American social and cultural history is still insufficiently appreciated and understood Blockbusting in Baltimore describes a widely experienced but little analyzed phenomenon of recent social history Orser makes an important contribution to community and urban studies race relations and records of the African American experience

Political Problems and Personalities in Contemporary Maryland Theodore F. Sheckels, Carl T. Hyden, 2022-11-08 Political Problems and Personalities in Contemporary Maryland provides a comprehensive rhetorical analysis of contemporary politics and political communication in Maryland at both the state and local levels Theodore F Sheckels and Carl Hyden approach rhetoric in a broader sense arguing that actions by political players including decisions on housing policy urban redevelopment policy and transportation policy are not in a separate category from their messages In many cases they argue actions are messages often with important material consequences Rather than focusing solely on previous or upcoming elections as political communication has traditionally been examined Sheckels and Hyden give considerable space to non election topics responding to current shifts in political communication scholarship and encouraging others to examine political communication at the local and state levels elsewhere in the United States Scholars of communication political science rhetoric and history will find this book of particular interest

Gornik,2002-09-17 Building on both the perspective of God s new creation and the view from the neighborhood To Live in Peace shows how the life of the church the strategies of community development and the practices of peacemaking can make a transformational difference **Encyclopedia of American Urban History** David Goldfield,2006-12-07 We are an urban nation and have been so officially at least since the early twentieth century But long before then our cities played crucial roles in the economic and political development of the nation as magnets for immigrants from here and abroad and as centers of culture and innovation They still do Yet the discipline that we call Urban History is really a phenomenon of post World War II scholarship Now after a generation of pathbreaking scholarship that has reoriented and enlightened our perception of the American city the two volumes of the Encyclopedia of American Urban History offer both a summary and an interpretation of the field With contributions from leading academics in their fields this authoritative resource offers an interdisciplinary approach by covering topics from economics geography anthropology politics and sociology Key Features Addresses the rise of urban America using a concise readable and historical format Focuses on the 20th century a century with the most dramatic urban growth and a time when the United States transformed from being a nation of shopkeepers and farmers to an urban industrial and then post industrial society Defines urban broadly including suburban environments and even something new and literally far out called penurbia Offers both a referential and a reverential approach to produce a work that functions as a research tool and as a commemoration of scholarship Includes contributions from leading academics and scholars as well as from those who work for non profits governments and corporations The Encyclopedia of American Urban History is a fundamental reference work intended to ground and inspire future research in the field It is an essential resource for any academic library **Black Social Capital** Marion Orr,1999 Deindustrialization white flight and inner city poverty have spelled trouble for Baltimore schools Marion Orr now examines why school reform has been difficult to achieve there revealing the struggles of civic leaders and the limitations placed on Baltimore s African American community as each has tried to rescue a failing school system Examining the interplay between government and society Orr presents the first systematic analysis of social capital both within the African American community black social capital and outside it where social capital crosses racial lines Orr shows that while black social capital may have created solidarity against white

domination in Baltimore it hampered African American leaders capacity to enlist the cooperation from white corporate elites and suburban residents needed for school reform Orr examines social capital at the neighborhood level in elite level interactions and in intergovernmental relations to argue that black social capital doesn't necessarily translate into the kind of intergroup coalition needed to bring about school reform He also includes an extensive historical survey of the black community showing how distrust engendered by past black experiences has hampered the formation of significant intergroup social capital The book features case studies of school reform activity including the first analysis of the politics surrounding Baltimore's decision to hire a private for profit firm to operate nine of its public schools These cases illuminate the paradoxical aspects of black social capital in citywide school reform while offering critical perspectives on current debates about privatization site based management and other reform alternatives Orr's book challenges those who argue that social capital alone can solve fundamentally political problems by purely social means and questions the efficacy of either privatization or black community power to reform urban schools **Black Social Capital** offers a cogent conceptual synthesis of social capital theory and urban regime theory that demonstrates the importance of government politics and leadership in converting social capital into a resource that can be mobilized for effective social change Dixie Emporium Anthony Joseph Stanonis, 2008 The ten essays in this collection focus on how southerners have marketed themselves to outsiders and identify spaces services and products that construct various Souths that exaggerate refute or self consciously safeguard elements of southernness Simultaneous **Not in My Neighborhood**, **Not in My Neighborhood** Antero Pietila, 2010-03-16 Baltimore is the setting for and typifies one of the most penetrating examinations of bigotry and residential segregation ever published in the United States Antero Pietila shows how continued discrimination practices toward African Americans and Jews have shaped the cities in which we now live Eugenics racial thinking and white supremacist attitudes influenced even the federal government's actions toward housing in the 20th century dooming American cities to ghettoization This all American tale is told through the prism of Baltimore from its early suburbanization in the 1880s to the consequences of white flight after World War II and into the first decade of the twenty first century The events are real and so are the heroes and villains Mr Pietila's engrossing story is an eye opening journey into city blocks and neighborhoods shady practices and ruthless promoters *"Why We are Troubled"* Kenneth D.
