Bloomberg Businessweek ,2011 **Bloomberg Markets** ,2007-07 The Ebola Epidemic Connie Goldsmith,2016-01-01 An ordinary blue thermos holding blood samples from a sick nun in Zaire reached Belgium's Institute of Tropical Medicine in September 1976 From the samples researchers discovered a new virus which they named the Ebola virus after a river in Central Africa The virus killed two hundred eighty people before it seemingly disappeared into the jungle No one suspected the virus would erupt in West Africa nearly four decades later to cause an unprecedented epidemic Ebola has riveted and terrified the world since its reemergence from the jungle killing more than eleven thousand people in West Africa since December 2013 Transmitted through bodily fluids blood saliva sweat vomit feces and semen the disease causes high fever widespread pain nausea and vomiting and severe diarrhea Patients may develop dangerous bleeding and organ failure With no effective treatment available about 40 percent of infected people die within days Using proper protective gear safe burial protocols cleansing techniques and educational outreach the disease has been slowed in Liberia Guinea and Sierra Leone at least temporarily Can researchers develop vaccines quickly enough to prevent new outbreaks Will Ebola move beyond West Africa Readers will hear from Ebola survivors learn what experts say about this devastating disease and draw their own conclusions about whether another epidemic can be prevented **The Secret Mitzvah of Lucio Burke** Steven Hayward,2010-06-11 The Secret Mitzvah of Lucio Burke is a hilarious and memorable first novel about youth and passion family and community miracles and violence and baseball This moving love story also a richly imagined chapter of Toronto history begins on a summer afternoon in 1933 when Lucio Burke knocks a great ungainly bird out of the Toronto sky with a single perfect throw of a baseball Thus it is that Lucio a careful seventeen year old whose father died the night he was born is drawn out of himself and into a complicated world *Fact-Checking the Fact-Checkers* Matt Palumbo,2023-07-18 Who fact checks the fact checkers An industry that started in the 1990s by fact checking chain emails and Bigfoot sightings has evolved over the past decade into the American political left's strongest tool in justifying the censorship of their political opposition and shaping the national narrative in their favor There may have been a brief era where the fact checkers fact checked facts now they fact check reality itself **The Prize** Dale Russakoff,2015-09-08 This New York Times bestseller chronicles how Mark Zuckerberg Chris Christie and Cory Booker tried and failed to reform education in Newark NJ In September of 2010 billionaire Facebook founder Mark Zuckerberg went on Oprah to announce a pledge of 100 million to transform the downtrodden schools of Newark New Jersey There by his side were the city's Democratic mayor Cory Booker and the state's Republican governor Chris Christie Together they vowed to make Newark a symbol of educational excellence for the whole nation But this trio of power players had no idea what they were in for The tumultuous changes planned by reformers and their highly paid consultants spark a fiery grass roots opposition stoked by local politicians and union leaders At the center of the fight was Newark's billion dollar a year education budget a prize that

for generations had enriched seemingly everyone except Newark's children In *The Prize* Dale Russakoff presents a dramatic narrative encompassing the rise of celebrity politics big philanthropy extreme economic inequality the charter school movement and the struggles and triumphs of schools in one of the nation's poorest cities One of the most important books on education to come along in years *The New York Times* **Mass Transit** ,2002 **Solar, Wind and Land** Troy A. Rule,2014-09-19 The global demand for clean renewable energy has rapidly expanded in recent years and will likely continue to escalate in the decades to come Wind and solar energy systems often require large quantities of land and airspace so their growing presence is generating a diverse array of new and challenging land use conflicts Wind turbines can create noise disrupt views or radar systems and threaten bird populations Solar energy projects can cause glare effects impact pristine wilderness areas and deplete water resources Developers must successfully navigate through these and myriad other land use conflicts to complete any renewable energy project Policymakers are increasingly confronted with disputes over these issues and are searching for rules to effectively govern them Tailoring innovative policies to address the unique conflicts that arise in the context of renewable energy development is crucial to ensuring that the law facilitates rather than impedes the continued growth of this important industry This book describes and analyses the property and land use policy questions that most commonly arise in renewable energy development Although it focuses primarily on issues that have arisen within the United States the book's discussions of international policy differences and critiques of existing approaches make it a valuable resource for anyone exploring these issues in a professional setting anywhere in the world Brill's Content ,2001 EBOOK: Operations Management 2/e PATON,2020-12-03 EBOOK Operations Management 2 e Andy Grove Richard S. course of the future In The Hank Show critically acclaimed author and journalist McKenzie Funk relates Asher s stranger than fiction story he careened from drug running pilot to alleged CIA asset only to be reborn as the pioneering computer programmer known as the father of data fusion He was the multimillionaire whose creations now power a new reality where your every move is tracked by police departments intelligence agencies political parties and financial firms alike But his success was not without setbacks He truly lived nine lives on top of the world one minute only to be forced out of the companies he founded and blamed for data breaches resulting in major lawsuits and market chaos In the vein of the blockbuster movie Catch Me if You Can this spellbinding work of narrative nonfiction propels you forward on a forty year journey of intrigue and innovation from Colombia to the White House and from Silicon Valley to the 2016 Trump campaign focusing a lens on the dark side of American business and its impact on the everyday fabric of our modern lives
