SPARC Scalable Processor Architecture is the industry's only openly defined and evolved RISC architecture. Version 9 is the new 64 bit incarnation of SPARC, the most significant change since SPARC's introduction in 1987. Unlike other RISC Reduced Instruction Set Computer designs, SPARC specifies not a hardware implementation chip but an open standard architecture belonging to the community of SPARC vendors and users. The SPARC specification is defined by the SPARC Architecture Committee, a technical arm of the computer maker consortium SPARC International. Version 9 provides 64 bit data and addressing support for fault tolerance, fast context switching support for advanced compiler optimizations, efficient design for Superscalar processors and a clean structure for modern operating systems. The V9 architecture supplements rather than replaces the 32 bit Version 8 architecture. The non-privileged features of Version 9 are upward compatible from Version 8 so 32 bit application software

can execute natively without modification on Version 9 systems no special compatibility mode is required Publication of the Version 9 architecture marks a three year development effort by SPARC International member companies from a broad cross section of disciplines **Chilton's Truck and Van Repair Manual, 1977-1984** ,1984 *MARPOL Consolidated Edition 2011* International Maritime Organization,2011 The International Convention for the Prevention of Pollution from Ships 1973 MARPOL Convention is concerned with preserving the marine environment through the prevention of pollution by oil and other harmful substances and the minimization of accidental discharge of such substances Its technical content is laid out in six Annexes the first five of which were in the 1973 Convention as modified by the 1978 Protocol and cover pollution of the sea by oil by noxious liquid substances in bulk by harmful substances in packaged form by sewage from ships and by garbage from ships Annex VI was adopted by the 1997 Protocol and covers air pollution from ships
