Miriam Mennen,2010 Essay from the year 2005 in the subject Business economics Marketing Corporate Communication CRM Market Research Social Media grade 72 % A University of Sunderland course Global Corporate Strategy language English abstract Ryanair was founded in 1985 as a family business that originally provided full service conventional scheduled airline services between Ireland and the UK The airline started to compete within the confines of the existing industry by trying to steal customers from their rivals especially the state monopoly carrier Air Lingus outlined by Chan Kim and René Mauborgne 2004 as Bloody or Red Ocean Strategy Ryanair seemed to follow a me too strategy according to Osborne K 2005 they tried to be all things to all people Even they started restructuring their strategy was not enough differentiated and their cost advantage was too low to be profitable Ryanair then created a competitive advantage through the alignment of the three components of business systems 1 Creating superior value for their customers outside perspective 2 Supplying their superior value adding activities in an effective and efficient manner which jointly form the Value Chain 3 Possessing over the resource base required to perform the value adding activities inside perspective According to Porter 1987 corporate strategy is what makes the corporate whole add up to more than the sum of its business unit parts It is seen to be concerned with the overall purpose and scope of the organisation and to meet the expectations of major stakeholders All aspects of Ryanair's value chain are important to the company and their shareholders as Ryanair's decisions add value to both The following report outlines the three perspectives of shaping Ryanair's business system The value creation dimension

of Ryanair's business model will be outlined considering the theories of Porter and the more recent authors Kim and Mauborgne 2004. Further the 1 [Bridging Digital Innovation and Technology for Business Transformation—ICTIM](#) Haitham M. Alzoubi, Anwar S. Al-Gasaymeh, Srinidhi Vasudevan, 2025-11-29. The book explores how emerging technologies transform industries and reshape modern business practices. It provides valuable insights into the integration of innovations across various sectors, making it an essential resource for academics, professionals, and students. Also, the book begins by examining educational technologies focusing on how digital tools such as AI, blockchain, and telemedicine are revolutionizing the learning experience and healthcare delivery. It highlights the increasing role of technology in improving student engagement, satisfaction, and outcomes in educational settings. Furthermore, it explores the significant impact of social networks and digital marketing on societal change and consumer behavior. It analyzes how these platforms influence public opinion, political participation, and corporate reputation, offering a critical understanding of the digital landscape's influence on modern communication. Legal and ethical challenges in the digital era are also a key focus, with discussions on topics such as digital copyright, privacy concerns, and the legal implications of internet crimes. This part provides a thorough examination of the evolving legal framework required to navigate the complexities of the digital age. In addition to the power of big data and predictive analytics, exploring how these tools are being used to optimize business operations and enhance decision-making processes. It underscores the strategic importance of digital transformation for achieving business growth and effective governance in today's competitive environment. Overall, *Innovation Technologies and Business Management* presents a comprehensive overview of how innovation and technology are driving change across industries, offering practical insights and strategies for leveraging these advancements in business management.

Business strategies: Blue Ocean Strategy
Katharina Niciejewska, Dimitar Dimitrov, 2009-11-16. Seminar paper from the year 2008 in the subject Business economics, Business Management, Corporate Governance, grade 1.7, Hamburg University of Applied Sciences course Marketing Strategien language: English abstract: In a business context, it is inevitable that one of the main words one would hear is competition. In a way, doing business is like participating in a competition for market share, profits, etc. Even one of the basic theories of trade, the one of Ricardo, speaks about the competitive advantage and its importance. But how to become successful in doing business? Does a recipe exist which guarantees that a business could thrive and be successful? On the one hand, one could argue that business opportunities arise from the environment, led by an invisible hand, and the essentials of doing business are similar to the ones centuries ago, and that people do not have substantial influence. On the other hand, others would argue that the success of a business is predominantly the result of well-prepared planning, and in that way, is connected more to the human merchant's abilities rather than to the environment itself. Surely, the centuries of business history have shown that answering the question what makes a business successful does not have a clear answer. It would be a very shallow way of thinking to give a simple answer to this question. Surely, the environment plays an important role for the

business but the other way round doing business is not a random game In contrast only thinking strategically without being in the appropriate environment and without any resources it is quite impossible to set up a successful business Furthermore the business environment is not static but instead very dynamic As the time passes by businesses change and what was true about business success centuries or even a decades ago is not true any more At the same time it does not mean that business now and in the past has nothing in common On the contrary nowadays the business and management science is so complex and possesses sophisticated methodology and tools which help to prove that the strategical way of thinking in the context of doing business is an essential part of the success of a company And even the understanding of business strategy is different because it could range from simple planning to the application of very complex scientific business models However as the business environment changes so do the business strategies as well That's why some of the often considered for true strategies seem to be out of date with the business reality For that reason if a strategy does not work one has to check it again

Munich language English abstract Since market power has moved from enterprises to consumers and global competition has increased substantially managers in almost all industries need to face enormous performance challenges To avoid being replaced by rivals they are forced to be more innovative in establishing and performing their competitive strategies Long term success will not be achieved solely through competitiveness but instead will depend on the ability to evolve new demand and create and gather new markets Therefore marketing is one of the most fundamental topics when concentrating on the customers desires Mainly it is about picking up the clients by delivering a unique feeling in form of a must have product Adidas is counted among one of the global players of sports and lifestyle brands together with its biggest competitors Nike and Puma With an annual revenue of EUR 21 218bn in 2017 over 56 888 employees worldwide and more than 900 million products produced per year the German business is an omnipresent sports and lifestyle brand which became more and more important over the last decades According to Statista it was voted one of the ten most reputable companies worldwide in 2018 being the only sports and lifestyle brand in this ranking In addition Forbes published an article stating that Adidas reached the third place of the World's most valuable sports brands following Nike and ESPN Yet by comparing the global revenues of Adidas Nike and Puma from 2006 to 2017 it can be seen that the company founded in 1924 by Adi Dassler in a small village in Southern Germany called Herzogenaurach is lagging behind Nike's global revenues for many years This is one of the core reasons driving the brand with the three stripes to establish new marketing strategies for diversifying and simultaneously increasing its customer portfolio The sections below concern aspects referring to the research fields E Marketing and E Commerce Online Marketing Online Advertising and Social Media and Mobile Marketing A summary with the most fundamental information is provided at the end of each part **Dataquest ,2008** **Business Periodicals Index ,2008**
