Agility Shift Creating Effective Organizations:

Agility Shift Pamela Meyer,2016-11-03 As contrary as it sounds planning as we traditionally understand the term can be the worst thing a company can do Consider that volatile weather events disrupt trusted supply chains markets and promised delivery schedules Ever shifting geo political tensions as well as internal political upheaval within U S and global governments derail long planned new ventures Technology failures block opportunities Competitors suddenly change their product or release date your team cannot meet the pace of innovations in your market niche leaving you sidelined There are myriad ways in the current business environment for a company s well considered business plans to go awry Most business schools continue to prepare managers to be effective in stable and predictable environments conditions that if they ever existed at all are long gone The Agility Shift shows business leaders exactly how to make the radical mindset and strategy shift necessary to create an agile entrepreneurial organization that can innovate and thrive in complex ever changing contexts As author Pamela Meyer explains there is much more involved than a reconfiguration of the org chart and job descriptions It requires relinquishing the illusion of control at the very foundation of most management training and business practice Despite most leaders approaches Agility is not simply accelerated planning Unlike many agility books on the market The Agility Shift provides specific actionable strategies and tactics for leaders at all levels of the organization to put into practice immediately to improve agility and achieve results

The Agility Shift ,2018 Nurturing Equanimity Michael Edmondson,2023-08-04 Nurturing Equanimity Building A Caring Culture provides a much needed blueprint for organizations looking to create a calm balanced and focused environment inviting people to thrive in both their personal and professional lives

This blueprint of nurturing equanimity to build a culture that cares is a necessity for any organization concerned about identifying recruiting and retaining the human capital required to create a sustainable future in today s post COVID marketplace Securing the right people for any organization is difficult in most markets doing so as the economy emerges from the pandemic induced global recession challenges even the most satisfied workplace cultures The pandemic s disruption and residue created an unstable and imbalanced culture across organizations of all sizes and in each industry that exposed numerous negative workplace characteristics many either knew or never stopped to consider Examples included low wages long and unnecessary commutes bad management and unfulfilling work These characteristics were symbolic of organizational cultures outdated toxic and imbalanced created by incompetence inertia and ineptitude The pandemic allowed employees to pause consider their life situation and realize their lives had been imbalanced for far too long Required reading for individuals from small to medium sized businesses large corporations non profit organizations and government offices Nurturing Equanimity Building A Culture That Cares offers employers and employees alike a valuable resource to use as they chart a course forward in a post pandemic marketplace
