100 years ago provides crews and mission planners with a framework to deal with contingencies and it is this that forms the core of this book Why the parallels between polar and space exploration Because polar exploration offers a better analogy for a Mars mission today than those invoked by the space community Although astronauts are routinely compared to Lewis and Clark Mars bound astronauts will be closer in their roles to polar explorers And as much as space has been described as a New Frontier Mars bears greater similarity to the polar regions which is why so much can be learned from those who ventured there
