Winnick, 2019-04-18 In Tennyson's Poems New Textual Parallels R H Winnick identifies more than a thousand previously unknown instances in which Tennyson phrases of two or three to as many as several words are similar or identical to those occurring in prior works by other hands discoveries aided by the proliferation of digitized texts and the related development of powerful search tools over the three decades since the most recent major edition of Tennyson's poems was published Each of these instances may be deemed an allusion meant to be recognized as such and pointing for definable purposes to a particular antecedent text an echo conscious or not deliberate or not meant to be noticed or not meaningful or not or merely accidental Unless accidental Winnick writes these new textual parallels significantly expand our knowledge both of Tennyson's reading and of his thematic intentions and artistic technique Coupled with the thousand plus textual parallels previously reported by Christopher Ricks and other scholars he says they suggest that a fundamental and lifelong aspect of Tennyson's art was his habit of echoing any work ancient or modern which had the potential to enhance the resonance or deepen the meaning of his poems The new textual parallels Winnick has identified point most often to the King James Bible and to such canonical authors as Shakespeare Milton Dryden Pope Thomson Cowper Shelley Byron and Wordsworth But they also point to many authors rarely if ever previously cited in Tennyson editions and studies including Michael Drayton Richard Blackmore Isaac Watts Erasmus Darwin John Ogilvie Anna Letitia Barbauld Letitia Elizabeth Landon John Wilson and with surprising frequency Felicia Hemans Tennyson's Poems New Textual Parallels is thus a major new resource for Tennyson scholars and students an indispensable adjunct to the 1987 edition of Tennyson's complete poems edited by Christopher Ricks      **The American Catalogue**, 1905 American national trade bibliography      Classical Monologues from Aeschylus to Bernard Shaw: Women : from Aeschylus to Racine Leon Katz, 2002 Contains over 250 monologues that cover over two thousand years of theatrical history      *Classical Monologues from Aeschylus to Bernard Shaw: Women : from the Restoration to Bernard Shaw* Leon Katz, 2002 Contains over 250 monologues that cover over two thousand years of theatrical history      *Classical Weekly*, 1918      The Classical Weekly, 1918      *The Publishers Weekly*, 1893      **The Saturday Review of Politics, Literature, Science and Art**, 1885      *The Oxford History of Literary Translation in English*: Peter France, Kenneth Haynes, 2006-02-23 In the one hundred and ten years covered by volume four of The Oxford History of Literary Translation in English what characterized translation was above all the move to encompass what Goethe called world literature This occurred paradoxically at a time when English literature is often seen as increasingly self sufficient In Europe the culture of Germany was a new source of inspiration as were the medieval literatures and the popular ballads of many lands from Spain to Serbia From the mid century the other literatures of the North both ancient and modern were extensively translated and the last third of the century saw the beginning of the

Russian vogue Meanwhile as the British presence in the East was consolidated translation helped readers to take possession of exotic non European cultures from Persian and Arabic to Sanskrit and Chinese The thirty five contributors bring an enormous range of expertise to the exploration of these new developments and of the fascinating debates which reopened old questions about the translator s task as the new literalism whether scholarly or experimental vied with established modes of translation The complex story unfolds in Britain and its empire but also in the United States involving not just translators publishers and readers but also institutions such as the universities and the periodical press Nineteenth century English literature emerges as more open to the foreign than has been recognized before with far reaching effects on its orientation
