And Election Lexington Studies Political Communication:

Studies of Communication in the 2016 Presidential Campaign Robert E. Denton Jr., 2017-12-13 This edited collection explores a wide range of communication elements and themes representing a variety of topics and methodologies. It focuses broadly on the role and function of communication within the context of the 2016 United States presidential election with chapters devoted to topics including an overview of the election from a communication perspective, the nominations strategies of campaign visits, the impact of gender in the campaign, the impact of WikiLeaks, front page election coverage, messaging and performance of third party candidates, Trump's campaign announcement address and Clinton's concession speech. This is an eclectic collection that makes a significant contribution to current understandings of the various roles of communication in the historic presidential election of 2016.

Media Bias in Presidential Election Coverage 1948-2008 David W. D'Alessio, 2012-03-22 Accusations of partisan bias in Presidential election coverage are suspect at best and self-serving at worst. They are generally supported by the methodology of instance confirmation tainted by the hostile media effect and based on simplistic visions of how the news media are organized. *Media Bias in Presidential Election Coverage 1948-2008* by Dave D'Alessio is a revealing analysis that shows the news media have four essential natures as journalistic entities, businesses, political actors, and property, all of which can act to create news coverage biases in some cases in opposing directions. By meta-analyzing the results of 99 previous examinations of media coverage of Presidential elections from 1948 to 2008, D'Alessio reveals that coverage has no aggregate partisan bias either way even though there are small biases in specific realms that are generally insubstantial. Furthermore, while publishers used to control coverage preferences, this practice has become negligible in recent years. *Media Bias* proves that at least in terms of Presidential election coverage, The New York Times is not the most liberal paper in America and the Fox News channel is substantially more conservative in news coverage than the broadcast networks. Finally, *Media Bias in Presidential Election Coverage 1948-2008* predicts that no amount of evidence will cause political candidates to cease complaining about bias because such accusations have both strategic potential in campaigns and an undeniable utility in ego defense.

Making a Difference Stephen Ward, 2008-01-01 This book is a cross-national analysis of the role of the Internet in elections. It examines the role of context in shaping candidate and party usage of the Internet in democratic electoral systems.

The Four Pillars of Politics James T. Kitchens, Larry Powell, 2017-03-27 *The Four Pillars of Politics* provides a uniform foundation for evaluating political campaign strategies. The four pillars identified in this book—fear, national narcissism, consumerism, and religion—serve as attitudinal anchors that American voters use in making their voting decisions. The dominant pillar may change from election to election, leading to situations in which a candidate who wins in one election may be defeated four years later. Kitchens and Powell examine how political communication is understood by combining these four pillars with the related matrix of attitudes, beliefs, and values that are integral components of the American culture. *The Four Pillars of Politics* will appeal to scholars of

political science communication studies and journalism *The Rhetoric of American Civil Religion* Jason A. Edwards, Joseph M. Valenzano III, 2016-09-30 The tie that binds all Americans regardless of their demographic background is faith in the American system of government This faith manifests as a form of civil or secular religion with its own core documents creeds oaths ceremonies and even individuals In *The Rhetoric of American Civil Religion* Symbols Sinners and Saints contributors seek to examine some of those core elements of American faith by exploring the proverbial saints sinners and dominant symbols of the American system *Political Campaign Communication* Robert E. Smith, Larry Powell, 2014-02-27 More than two billion dollars That s how much money was spent in the 2012 presidential campaign the most expensive campaign in history Each party raised and spent more than one billion dollars as the traditional boundaries of campaign financing were ignored Both parties could do so because they were playing in a game with new rules rules that largely developed after the 2010 Supreme Court ruling known as Citizens United That case removed many restrictions on donation limits particularly for corporations and unions The result was the development of a new set of political players called Super PACs that were allowed to enter the political arena and spend an unlimited amount of money on behalf of clients This book looks at how Super PACs raised and spent money and influenced the 2012 election It provides an insightful look at how both right and left leaning groups approached the election and impacted the political process **Web 2.0 and the Political Mobilization of College Students** Kenneth W. Moffett, Laurie L. broader swathe of young adults than might ordinarily participate Political scientists have traditionally determined that participatory patterns among the general public hold less sway in shaping civic activity among college students This book however recognizes that young adults political participation requires looking at their online activities and the ways in which these help mobilize young adults to participate via other forms Moffett and Rice discover that engaging in one online participatory form usually begets other forms of civic activity either online or offline Studies of Communication in the 2020 Presidential Campaign Robert E. Edwards, 2009-08-28 At a time when presidential campaigns are shaped to appeal to women voters when masculinity constructs impinge on wartime leaders and when the United States appears to move towards the possibility of a woman president it is vital that communication scholarship addresses the issue of gender and politics in a comprehensive manner *Gender and Political Communication in America* Rhetoric Representation and Display takes on this challenge as it investigates from a rhetorical and critical standpoint the intersection and mutual influences of gender and political communication as they are realized in the nation s political discourse Representing some of the leading investigators on gender and political communication as well as emerging scholars the volume s contributors update and interrogate contemporary issues of gendered politics applicable to the 21st century including the historic 2008 election Through their original research the contributors offer critical examinations of the impact of salient theories and models of gender studies as they relate to historical and contemporary roles and practices in the political sphere *Gender and Political Communication in America* s broad and diverse engagement with the subject matter makes it a must read for those interested in women s studies and political communication **Studies of Identity in the 2008 Presidential Campaign** Robert E. Denton Jr., 2010-06-14 To simply say the 2008 presidential election was historic

seems like an understatement The election was unique in many ways beyond the selection of the nation's first African American as President The drama of the election was also heightened by the historic nomination battle between Hillary Clinton and Barack Obama The contest generated issues of race and gender throughout the campaign as did the candidacy of Sarah Palin as the Republican Vice Presidential nominee And John McCain brought his own unique qualities to the campaign Vietnam War hero long term Congressional service record feisty temperament and the oldest first time presidential candidate to run for the Presidency Thus issues of race gender and age dominated the campaign both implicitly and explicitly The candidacies of Clinton Obama McCain and Palin provided the context and dynamics for charges of racism sexism and ageism

Presidential Campaign Rhetoric in an Age of Confessional Politics Brian T. Kaylor,2010-12-28 When a Bible quoting Sunday School teacher Jimmy Carter won the 1976 presidential election it marked the start of a new era of presidential campaign discourse The successful candidates since then have followed Carter s lead in publicly testifying about their personal religious beliefs and invoking God to justify their public policy positions and their political visions With this new confessional political style the candidates have repudiated the former perspective of a civil religious contract that kept political leaders from being too religious and religious leaders from being too political Presidential Campaign Rhetoric in the Age of Confessional Politics analyzes the religious political discourse used by presidential nominees from 1976 2008 and then describes key characteristics of their confessional rhetoric that represent a substantial shift from the tenets of the civil religious contract This new confessional political style is characterized by religious political rhetoric that is testimonial partisan sectarian and liturgical in nature In order to understand why candidates have radically adjusted their God talk on the campaign trail important religious political shifts in American society since the 1950s are examined which demonstrate the rhetorical demands evangelical religious leaders have placed upon our would be national leaders Brian T Kaylor utilizes Michel Foucault s work on the confession with theoretical adjustments to critique the significant problems of the confessional political era With clear analyses and unsettling relevance Kaylor s critique of contemporary political discourse will rouse the interest and concern of engaged citizens everywhere
