**The Substance of Truth** Tolu Olorunda,2012-01-01 Tolu Olorunda is a cultural critic whose work has regularly appeared on AlterNet Black Commentator

CounterPunch Truthout and several other publications including ColorLines magazine The Nation magazine and Wiretap magazine His book The Substance of Truth takes a frank look into what has become of a society that touts grand and lofty ideals which it often fails to fulfill With essays addressing issues as broad as the education system 21st century media culture Hip Hop culture youth culture neoliberalism and moral poverty Olorunda argues the days ahead would darken in promise if rigorous action isn't soon applied to rectify the way people think how they respond to their surroundings and the decisions they take to make the world better than it stands today This struggle he insists could define whether or not a livable future would exist for the most vulnerable of all children whose plights are increasingly cast aside and ignored From the book At risk of appearing alarmist it's easy to ignore all the warning signs hanging around us that suggest the clock is ticking fast real fast and that time left for due action is short But if life for the next generation should contain some semblance of sanity where life itself means more than shopping malls and commodities where Power stands accountable to the demands of communities all fear of coming across hyperbolic would have to give way to the realities staring us down The risk also extends to coming across Pollyannaish as though all the impurities and iniquities holding hostage society can be cured with essays or lectures But we cannot afford to let this moment slip by unattended unengaged The problems number endless and so do the possibilities And at no other moment has a generation been more fortunate with the ease of technology to make miracles happen amidst frightening circumstances At no other moment has the clarion call blared this clearly and loudly

**The Power of Story** Joan Wink Ph.D.,2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot Stories bring together readers writers librarians teachers students and families in the libraries of today and will continue to do so tomorrow Written for all those lovers of literacy this book links libraries and literacies through the power of stories The book is not filled with data in the form of pie charts graphs and tables Rather the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries The author's primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all The book begins by presenting anecdotes and the author's personal story to lay the foundation for what literacies are and what literacy is not An activity Spiral of Literacy allows readers to reflect on their own literacies Chapters that follow each begin with a story that sets the theoretical foundation Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy
