

At Renton High School we teach all levels of math using Complex Instruction. This allows students to come together and share their math strengths and understanding as they make their way through new math concepts. Having students rely on one another, first, for their math knowledge deepens their understanding of the learning targets because as they work to find the ways to explain to one another what they know, they solidify their learning at the same time.

Instruction comes through dialogue, exploration, and problem-solving. When looking at the IB Learner Profile, it becomes quickly apparent that there are many connections between our CI math instruction and how IB values student learning.

CI relies heavily on risk-taking when students work through the various tasks. They know that the material may be unfamiliar to them and are ready to forge through it together. They have to be open to new ideas, try new strategies and not be afraid to share what they think they know.

CI also asks students to be inquirers, demonstrate that they are knowledgeable and are thinkers. The tasks they are asked to undertake encourage them to ask questions and actively seek answers. They are to be engaged and excited in their learning, showing ownership over their thoughts and beliefs. They are expected to explore concepts that are new to them and use what they know to expand their understanding. They are also expected to make informed decisions and share them with their classmates.

As students work to communicate their learning during CI tasks, they are also challenged to work with integrity. They are to share ideas, but not steal them. They must acknowledge where their ideas come from, when they are not their own. At the same time students may be asked to share ideas in many forms, through presentation, posters, small group and whole group discussion, and even personally reflect on concepts and their individual understanding.

The IB Learner Profile is clearly intertwined with the philosophies of Complex Instruction and math learning here at RHS.
