Book And Fools Frauds Firebrands Thinkers Left:

Fools, Frauds and Firebrands Roger Scruton, 2015-10-08 The thinkers who have been most influential on the attitudes of the New Left are examined in this study by one of the leading critics of leftist orientations in modern Western civilization. Scruton begins with a ruthless analysis of New Leftism and concludes with a critique of the key strands in its thinking. He conducts a reappraisal of such major left wing thinkers as E P Thompson, Ronald Dworkin, R D Laing, Jürgen Habermas, György Lukács, Jean Paul Sartre, Jacques Derrida, Slavoj Žižek, Ralph Milliband and Eric Hobsbawm. In addition to assessments of these thinkers' philosophical and political contributions, the book contains a biographical and bibliographical section summarizing their careers and most important writings. In *Thinkers of the New Left*, Scruton asks what does the Left look like today and as it has evolved since 1989. He charts the transfer of grievances from the working class to women, gays and immigrants, asks what can we put in the place of radical egalitarianism and what explains the continued dominance of antinomian attitudes in the intellectual world. Can there be any foundation for resistance to the leftist agenda without religious faith? Scruton's exploration of these important issues is written with skill, perception and at all times with pell-mell clarity. The result is a devastating critique of modern left wing thinking.

The Critique of Religion and Religion's Critique, 2020-04-14 In *The Critique of Religion and Religion's Critique On Dialectical Religiology*, Dustin J. Byrd compiles numerous essays honouring the life and work of the Critical Theorist Rudolf J. Siebert. His dialectical religiology, rooted in the critical theory of the Frankfurt School especially Theodor Adorno, Max Horkheimer, Walter Benjamin, Herbert Marcuse, Erich Fromm, Leo Lowenthal and Jürgen Habermas, is both a theory and method of understanding religion's critique of modernity and modernity's critique of religion. Born out of the Enlightenment and its most important thinkers, i.e. Kant, Hegel, Marx, Nietzsche and Freud, religion is understood to be dialectical in nature. It contains within it both revolutionary and emancipatory elements but also reactionary and regressive elements which perpetuate mankind's continual debasement, enslavement and oppression. Thus, religion by nature is conflicted within itself and thus stands against itself. Dialectical Religiology attempts to rescue those elements of religion from the dustbin of history and reintroduce them into society via their determinate negation. As such, it attempts to resolve the social, political, theological and philosophical antagonisms that plague the modern world in hopes of producing a more peaceful justice filled equal and reconciled society. The contributors to this book recognize the tremendous contributions of Dr. Rudolf J. Siebert in the fields of philosophy, sociology, history and theology and have profited from his long career. This book attempts to honour that life and work. Contributors include Edmund Arens, Gregory Baum, Francis Brassard, Dustin J. Byrd, Denis R. Janz, Gottfried Klenzen, Mislav Kuko, Michael R. Ott, Rudolf J. Siebert, Hans K. Weitensteiner and Brian C. Wilson.

Transilvania ,2017 **Confessions of a Heretic, Revised Edition** Roger Scruton,2021-08-24 A revised edition of the Notting Hill Editions essay collection by the late Sir Roger Scruton with a new introduction by Douglas Murray Confessions of a Heretic is a collection of provocative essays by the influential social commentator and polemicist Roger Scruton Each confession reveals aspects of the author's thinking that his critics would probably have advised him to keep to himself In this selection covering subjects from art and architecture to politics and nature conservation Scruton challenges popular opinion on key aspects of our culture What can we do to protect Western values against Islamist extremism How can we nurture real friendship through social media Why is the nation state worth preserving How should we achieve a timely death against the advances of modern medicine This provocative collection seeks to answer the most pressing problems of our age In his introduction the bestselling author and commentator Douglas Murray

writes of what it cost Scruton to express views considered unpalatable and of the importance of these ideas after Scruton's death , **On Human Nature** Roger Scruton, 2017-02-14 A brief radical defense of human uniqueness from acclaimed philosopher Roger Scruton In this short book acclaimed writer and philosopher Roger Scruton presents an original and radical defense of human uniqueness Confronting the views of evolutionary psychologists utilitarian moralists and philosophical materialists such as Richard Dawkins and Daniel Dennett Scruton argues that human beings cannot be understood simply as biological objects We are not only human animals we are also persons in essential relation with other persons and bound to them by obligations and rights Our world is a shared world exhibiting freedom value and accountability and to understand it we must address other people face to face and I to I Scruton develops and defends his account of human nature by ranging widely across intellectual history from Plato and Averroes to Darwin and Wittgenstein The book begins with Kant's suggestion that we are distinguished by our ability to say I by our sense of ourselves as the centers of self conscious reflection This fact is manifested in our emotions interests and relations It is the foundation of the moral sense as well as of the aesthetic and religious conceptions through which we shape the human world and endow it with meaning And it lies outside the scope of modern materialist philosophy even though it is a natural and not a supernatural fact Ultimately Scruton offers a new way of understanding how self consciousness affects the question of how we should live The result is a rich view of human nature that challenges some of today's most fashionable ideas about our species
