Becoming An African Diaspora In Australia Language Culture Identity:

Becoming an African Diaspora in Australia F. Ndhlovu, 2014-07-08 *Becoming an African Diaspora in Australia* extends debates on identities cultures and notions of race and racism into new directions as it analyses the forms of interactional identities of African migrants in Australia It de naturalises the commonplace assumptions and imaginations about the cultures and identities of African diaspora communities and probes the relevance and usefulness of identity markers such as country of origin nationality ethnicity ethnic heritage language and mother tongue Current cultural frames of identity representation have so far failed to capture the complexities of everyday lived experiences of transnational individuals and groups Therefore by drawing on fresh concepts and recent empirical evidence this book invites the reader to revisit and rethink the vocabularies that we use to look at identity categories such as race culture language ethnicity nationality and citizenship and introduces a new language nesting model of diaspora identity This book will be of great interest to all students of migration diaspora African and Australian studies *The Routledge Handbook of Heritage Language Education* Olga E.
