**Becoming Nicole** Amy Ellis Nutt, 2015-10-29 *Becoming Nicole* is a powerful and illuminating book about one couple's journey in coming to accept and nurture their transgender daughter It's a page turner and a heart opener I couldn't recommend it more highly Cheryl Strayed author of *Wild* When Wayne and Kelly Maines adopted identical twin boys they thought their lives were complete But it wasn't long before they noticed a marked difference between Jonas and his brother Wyatt Jonas preferred sports and trucks and many of the things little boys were supposed to like but Wyatt liked princess dolls and dressing up and playing Little Mermaid By the time the twins were toddlers confusion over Wyatt's insistence that he was female began to tear the family apart *Becoming Nicole* is the heart wrenching story of a mother whose instincts told her that her child needed love and not disapproval of a conservative army veteran father who overcame his deepest fears to embrace his new daughter of a loving brother who never gave up supporting his twin sister and of a town forced to confront its own prejudices More than

that however Becoming Nicole is the story of an extraordinary girl who fought for the right to be herself **Gender Identity** Cynthia L. Winfield, 2019-07-15 What does it mean to be male What does it mean to be female In contemporary culture such distinctions have increasingly been regarded as much too narrow to cover the entire spectrum of humanity Over the past few decades thousands of individuals have bravely declared their true identities and refused to be boxed into what society has dictated It has become increasingly important especially for those coming into adulthood to go beyond the concepts of gay lesbian straight and bisexual when examining gender In Gender Identity The Ultimate Teen Guide Cynthia L Winfield encourages readers to reject the notion that male or female designations fit all The author examines how gender lines have been crossed as a growing number of individuals including young adults have found the courage to express and celebrate their authentic selves In this book Winfield addresses Differences between biological sex sexual orientation gender identity and gender expressionLegal protections for those outside the narrowly defined gender normsPublic debate and shifting views about gender identityWays readers can make society more cognizant and inclusive of gender variant individuals In addition to providing a well grounded introduction to lesbian gay bisexual transgender queer or questioning intersex and asexual persons and issues this book allows contemporary teens and young adults to voice their experiences As more and more public figures from actress Laverne Cox to Olympic athlete turned reality television star Caitlyn Jenner have shared their stories it's just as important for everyday people to identify who they are This second edition of Gender Identity The Ultimate Teen Guide is a much needed update of an important topic and will be of interest to young adults their families and friends and the community at large

**Metaphysics and Gender: The Normative Art of Nature and Its Human Imitations** Michele Schumacher, 2023-03-07 The emergent science of transgenderism and related philosophies of gender propose a full scale inversion of the understanding of God man and the created order articulated in classical metaphysics undermining and parodying both the causality and ontology voiced by Genesis 1:27 God created man in His own image male and female He created them Whether through subversive performative identity or by surgical sex change the divinely made human person is now threatened with abolition and replacement by the self made man and the man made woman In Metaphysics and Gender Michele M Schumacher offers a corrective to this distorted and distorting outlook calling for the recovery of an anthropological vision rooted in recognition of the normative divine art of nature and of the likeness and far greater unlikeness between divine and human causality Surveying contemporary transgender trends Schumacher identifies and excavates their conceptual and ideological foundations in the gender theory of Judith Butler the existentialist feminism of Simone de Beauvoir and the atheistic existentialism of Jean Paul Sartre To the erroneous philosophical presuppositions of these thinkers Schumacher contrasts the metaphysically grounded thought of Aristotle and Thomas Aquinas advancing their positive account of the good of creation and of the meaning of ethical norms human freedom and natural inclinations and embodiment and mounting a timely and trenchant defense of the divinely created human person
