

EMERGENCY STATIC AIR SOURCE (OPTIONAL)

Should ice or other foreign material obstruct the static air ports on the fuselage, place the emergency static air source valve knob in the ON position. The knob is located on the upholstery panel forward of the pilot's seat. Airspeed and altimeter readings will vary somewhat from those obtained from the normal source. Consult the Airspeed and Altimeter Correction Chart for these instrument variations. Keep the emergency static air valve fully closed (knob in OFF position) except when the source is required.
