illustrated 1919 edition Excerpt and bees Sports and variations occur producing inferior progeny but all careful breeders who have an eye to the improvement of the race reject those that do not come up to the standard of excellence sending such animals and poultry to the shambles so let us carefully select the best queens and drones to breed from Length of Tongues The length of the tongue Fig 13 of the honey bee is an important matter in her make up as there are some blossoms such as red clover which have so long a corolla that the average bee cannot reach their nectar The Cyprian bee is said to have a longer tongue than other races but its cross disposition renders it unfit for general domestication The Italians have often furnished strains that harvested nectar from red clover during the second crop of that plant and in very dry seasons from the first crop For that reason we strongly recommend the Italians over any other race The Italian Bees 123 Briefly stated their superiority is thus demonstrated 1 They have longer tongues and gather honey from flowers where black bees cannot 2 They are more industrious and persevering and with the same opportunity gather much more than black bees 3 They work earlier and later in the day as well as in the season often gathering stores when the blacks are idle 4 They are better to guard their hives against robbers 84 and against the ravages of the bee moth s larvfe 214 5 They are more prolific in the spring 6 Their bees and queen adhere more tenaciously to the comb 7 They are amiable and it is easy to manipulate them There are other races of bees which are desirable and among them we will mention the Caucasian and the Carniolan but as both of Bees and Honey, Or First Lessons in Bee-Keeping Thomas Newman,2015-12-01 An exact reproduction from an original copy of BEES AND HONEY OR FIRST LESSONS IN BEE KEEPING by Thomas Newman originally published in 1911 This book is a short treatise for beginners originally written and published by Thomas Newman then editor of the American Bee Journal the oldest bee publication in America Mr Newman died in 1903 In this 1911 edition C P DADANT updates the book with the newly discovered beekeeping skills which he had mastered The Dadant family originally from France is one the first families of beekeeping in America Charles Dadant 1817 1902 is considered one of the founding fathers of modern beekeeping He was always seeking a better way to keep bees Just as he had begun with the old European eke he quickly abandoned that kind of beekeeping for the modern Langstroth hive concept It may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book Dadant System of Beekeeping Camille Pierre Dadant,1920 The Beekeeper's Handbook Diana Sammataro,Alphonse Avitabile,1998 Since 1973 tens of thousands of first time and experienced beekeepers alike have relied on The Beekeeper s Handbook as the best single volume guide to the hobby and profession of beekeeping Featuring clear descriptions and authoritative content this handbook provides step by step directions accompanied by more than 100 illustrations for setting up an apiary handling bees and working throughout
