commercial relationship of the proposer with the client When the bidder presents a budget that is too low and has the misfortune of being awarded the work he will inexorably have to deal with negative financial results since the expenses will exceed the income If the bid has a very high value compared to the competition s proposals it will probably be out of the price competition This situation although less burdensome than the previous one has an adverse effect on your assets because of the increase expenses The conclusion is that when quoting we must carefully analyze each step to submit a reliable bid Submitting a Winning Bid The purpose of presenting a Winning Bid is to give the reader a complete and valuable guide to support them when budgeting This manuscript details the major aspects to be considered in each of the stages of the elaboration of a proposal to achieve the desired reliable budget To quote it is necessary to have your own experience in construction and industrial assembly and to use emotional intelligence to reconcile criteria with other colleagues or specialists to deepen the knowledge about what is being quoted Guidelines to Making Construction Bidding with Examples This guide is based on the author s outstanding experience The author of this book worked during a large part of his professional life as a manager and construction director on site in different chemical process plants refineries gas pipelines compression plants and thermal power plants in the country and abroad finally created and presided over a construction and assembly company Throughout his career the author has prepared and reviewed hundreds of estimates for bids for the refurbishment of industrial plants and new installations Decide to implement the suggestions made in this publication and your economic proposals will surely be more precise
