Before And After Muhammad The First Millennium Refocused:

Before and After Muhammad Garth Fowden,2013-11-21 A new historical framework integrating Islam into European and Asian history Islam emerged amid flourishing Christian and Jewish cultures yet students of Antiquity and the Middle Ages mostly ignore it Despite intensive study of late Antiquity over the last fifty years even generous definitions of this period have reached only the eighth century whereas Islam did not mature sufficiently to compare with Christianity or rabbinic Judaism until the tenth century Before and After Muhammad suggests a new way of thinking about the historical relationship between the scriptural monotheisms integrating Islam into European and West Asian history Garth Fowden identifies the whole of the First Millennium from Augustus and Christ to the formation of a recognizably Islamic worldview by the time of the philosopher Avicenna as the proper chronological unit of analysis for understanding the emergence and maturation of the three monotheistic faiths across Eurasia Fowden proposes not just a chronological expansion of late Antiquity but also an eastward shift in the geographical frame to embrace Iran In Before and After Muhammad Fowden looks at Judaism Christianity and Islam alongside other important developments in Greek philosophy and Roman law to reveal how the First Millennium was bound together by diverse exegetical traditions that nurtured communities and often stimulated each other

Before and After Muhammad Garth Fowden,2013 *Arabs and Empires Before Islam* Greg Fisher,2015 Arabs and Empires before Islam collates nearly 250 translated extracts from an extensive array of ancient sources which from a variety of different perspectives illuminate the history of the Arabs before the emergence of Islam *Pre-Islamic Arabia* Valentina A. Grasso,2023-02-23 Explores the composite cultural and political milieu of pre Islamic Arabia situating its history within the broader late antique context Florilegia Syriaca: Mapping a Knowledge-Organizing Practice in the Syriac World Emiliano Fiori,Bishara Ebeid,2023-02-17 From the 6th century onwards Syriac patristic florilegia collections of Greek patristic excerpts in Syriac translation progressively became a prominent form through which Syriac and Arab Christians shaped their knowledge of theology In these collections early Greek Christian literature underwent a substantial process of selection and re organization The papers collected in this volume study Syriac florilegia in their own right as cultural products possessing their own specific textuality and outline a phenomenology of Syriac patristic florilegia by mapping their diffusion and relevance in time and space from the 6th to the 17th century from the Roman Empire to China **Languages and Cultures of Eastern Christianity: Greek** Scott Fitzgerald Johnson,2017-05-15 This volume brings together a set of fundamental contributions many translated into English for this publication along with an important introduction Together these explore the role of Greek among Christian communities in the late antique and Byzantine East late Roman Oriens specifically in the areas outside of the immediate sway of Constantinople and imperial Asia Minor The local identities based around indigenous eastern Christian languages Syriac Coptic Armenian Georgian etc and post Chalcedonian doctrinal confessions Miaphysite Church of the East Melkite Maronite were solidifying precisely as the Byzantine polity in the East was extinguished by the

Arab conquests of the seventh century In this multilayered cultural environment Greek was a common social touchstone for all of these Christian communities not only because of the shared Greek heritage of the early Church but also because of the continued value of Greek theological hagiographical and liturgical writings However these interactions were dynamic and living so that the Greek of the medieval Near East was itself transformed by such engagement with eastern Christian literature appropriating new ideas and new texts into the Byzantine repertoire in the process Constructions of Gender in Religious Traditions of Late Antiquity Kathy Ehrensperger,Juni Hoppe,Shayna Sheinfeld,2024-03-26 This volume examines questions concerning the construction of gender and identity in the earliest days of what is now Judaism Christianity and Islam Methodologically explicit the contributions analyze textual and material sources related to these religious traditions in their cultural contexts The sources examined are predominantly products of patriarchal elite discourses requiring innovative approaches to unveil aspects of gender otherwise hidden This volume extends the discussion represented in the volume Gender and Second Temple Judaism 2020 and highlights the fruitfulness of interdisciplinary research beyond anachronistic discipline distinctions

Demons in the Details Sara Ronis,2025-04-15 The Babylonian Talmud is full of stories of demonic encounters and it also includes many laws that attempt to regulate such encounters In this book Sara Ronis takes the reader on a journey across the rabbinic canon exploring how late antique rabbis imagined feared and controlled demons Ronis contextualizes the Talmud's thought within the rich cultural matrix of Sasanian Babylonia placing rabbinic thinking in conversation with Sumerian Akkadian Ugaritic Syriac Christian Zoroastrian and Second Temple Jewish texts about demons to delve into the interactive communal context in which the rabbis created boundaries between the human and the supernatural and between themselves and other religious communities Demons in the Details explores the wide range of ways that the rabbis participated in broader discussions about beliefs and practices with their neighbors out of which they created a profoundly Jewish demonology

Der historische Muhammad in der islamischen Theologie Zishan Ghaffar,2018 Who was the prophet Muhammad according to Islamic tradition and what can we know historically about the stations of his life What are the hermeneutical presumptions of that constant quest for a concrete image of prophet of Islam The present study aims to analyze criteria of authenticity for the reconstruction of the Life of Muhammad Contrasting the quest for the historical Muhammad with the utmost comparable quest for the historical Jesus this study offers a critique of tendentious research on early Islam At the same time the hermeneutical implications of contextualizing Muhammad and the early Muslim community in Late Antiquity are discussed The result of this study is a methodological overview of the most promising criteria of authenticity in the quest for the historical Muhammad and its significance for an emerging Islamic theology Wie können wir wissen wer der historische Muhammad war Welche Rolle spielt diese historiographische Fragestellung in der islamischen Theologie Der Autor stellt die Frage nach zuverlässigen Kriterien für eine historische Rekonstruktion von Muhammad Zishan Ghaffar stellt dabei die Leben Muhammad Forschung der Leben Jesu Forschung gegenüber Dieser vergleichende Ansatz

erleichtert die Bestimmung der wichtigsten Kriterien für die historische Frage nach Muhammad. Mit dieser Grundlage hat der Autor eine geschichts hermeneutische Voraussetzung geschaffen um Muhammed in einen breiten Kontext zu setzen beispielsweise seine Bedeutung in der urmuslimischen Gemeinde in der spätantiken Umwelt und seine Einbeziehung in die islamische Theologie

The First Muslim Lesley Hazleton, 2013
Muhammad's life was of almost unparalleled historical importance yet for all the iconic power of his name the intensely dramatic story of the prophet of Islam is not well known. In The First Muslim Lesley Hazleton brings him vibrantly to life. Drawing on early eyewitness sources and on history, politics, religion and psychology she renders him as a man in full in all his complexity and vitality. Hazleton's account follows the arc of Muhammad's rise from powerlessness to power from anonymity to renown from insignificance to lasting significance. How did a child shunted to the margins end up revolutionizing his world? How did a merchant come to challenge the established order with a new vision of social justice? How did the pariah hounded out of Mecca turn exile into a new and victorious beginning? How did the outsider become the ultimate insider?

The Life and Work of Muhammad Yahiya Emerick, 2002
Given the current prominence of Islam it has become more important than ever that Westerners and Muslims gain an accurate look at who Muhammad was and what he stood for. Provides a fascinating picture of both Muhammad and the world in which he lived. Rather than settling in to the comfortable life of a merchant Muhammad had a vision of himself bringing the message of the one God to his idolatrous people. Coverage includes the claim to prophethood, Muhammad's teachings and his first converts, the Muslim flight to Medina, Muhammad's battles and the eventual bloodless Muslim conquest of Mecca, Muhammad's political victory in the Arabian peninsula and wars with Byzantium and Persia, the death of Muhammad and the ways in which his message lived beyond him and Muhammad's place in history, his role in Muslim theology and cosmology, the ways he is viewed in different Muslim sects and regions and the influence of Muhammad today in Islamic movements both peaceful and fundamentalist.

Muhammad and the Origins of Islam Francis E. Peters, 1994-01-01
An inquiry into the religious environment of the person Muslims hail as the Envoy of God and an attempt to trace his progress along the path from paganism to that distinctive form of monotheism called Islam.

Muhammad and His Power Peirce de Lacy Henry Johnstone, 2015-06-02
Excerpt from Muhammad and His Power
So much has been written and so much learning and study devoted to the history of Muhammad and the religious and political power which he founded and which now after thirteen centuries seems as a religion not less firmly established than ever it was that one who approaches the subject to day cannot hope to do much more than sift and select from the labours of those who have gone before him. The struggle of Christianity with the forces of Islam began within five years of the Flight from Mecca but the study of its documents and the history of its rise and progress that is of course by those who are outside its pale has been the growth of the last century and a half. In our own country the strength and scarcely less the weaknesses of the founder and of the system have roused the admiration of Gibbon and Carlyle have been the object of profound study by such scholars and administrators as Edward Lane and Sir
