## **Infinite banking concept** Jeffery Long,2021-09-28 Passive Income Ideas

Requiring an Upfront Monetary Investment These types of passive income require you to invest money upfront to generate the passive income later Don t be alarmed though you can start with as little as 5 with some of these ideas so it s achievable for everyone 1 Dividend Stocks Dividend stocks are tried and true way to earn passive income You will have to do plenty of research to find good stocks and invest a significant amount of money to receive large dividend checks However if you consistently invest money into dividend stocks you can amass a nice residual income over time For any of these investment

opportunities make sure you open an account at the best online brokerage and get rewards while doing it This is amazing for investing in dividend stocks because you can build your portfolio of say 30 stocks Then your investments will be auto allocated to your entire portfolio every deposit for FREE You can even auto rebalance Then your dividends can also be reinvested It s a fantastic platform and it was made for this 2 Rental Properties A cash flowing rental property is a fantastic way to bring in a monthly income To make this truly passive you can outsource the running of the properties to a management company However the internet has made investing in rental properties easier than ever before There are a lot of ways you can invest in rental properties depending on what your goals and interests are You can be a limited partner in large residential or commercial properties or you can buy homes and be a landlord all online

**Nash's Becoming Your Own Banker** Everest Media,2022-08-29T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The banking business is the most important business in the world Without it all business transactions would cease to happen The flow of money must come from a supply source and that source is always controlled by someone or some organization 2 The concept of compound interest over a long period of time was the basis of my thought process I understood that with no taxation on the build up I was dealing with compound interest over a long period of time with no payments 3 When this happens to you you must ask the financial geniuses who recommended that you do this what you should do now Most likely they will tell you to sell the house But where do you find a fool who will buy it under those circumstances 4 The principles of insurance are the same no matter what type of insurance you have It requires understanding and discipline to implement but it can change your life dramatically
