Becoming Sage:

Becoming Sage Michelle Van Loon,2020-04-07 Why Do We Act Like There Is An Age Restriction on Spiritual Growth For the last several decades Western churches have focused the bulk of their resources on the early stages of discipleship children s Sunday school youth group college ministry While these are all important we have neglected the spiritual growth of those in the second half of life In fact an outside observer might think that after the growth of the college years the goal is simply to coast through the rest of your Christian life Michelle Van Loon has a different idea In *Becoming Sage* she challenges those in midlife and beyond to continue pursuing radical spiritual growth and she ll help you get started She explores what the unique challenges of midlife can teach us about Jesus and how to think about everything from church friends and family to money bodies and meaning Don t settle for a life of coasting Revitalize your spiritual growth today

The Social Contract: A Theory on Dignity Qianfan Zhang,2025-12-18 Based on methodological individualism and empiricism this book aspires to shape a real social contract one ultimately based on the reciprocal respect of human dignity that is capable of founding a legitimate state in the real world It aims to establish among other points that 1 a real social contract is essential for legitimating and sustaining constitutional democracy 2 misconceived social contract theories such as those developed by Rousseau or Rawls may well lead to totalitarianism rather than liberal democracy and 3 a true social contract is ultimately rooted in the reciprocal respect for human dignity a concept found in philosophies like Confucianism which itself requires reformulation to adapt to the modern world

Learning the Good Life Jessica Hooten Wilson,Jacob Stratman,2022-05-03 Discover the Good Life as you learn from the wise voices of the past We ve lost ourselves Disconnected from the past and uncertain about the future we are anxious about what our lives will be and troubled by a nagging sense of meaninglessness Adrift in the world many Christians have their identity completely wrapped up in work and their definition of the good life is financial success Fewer of are staying committed to the Christian faith finding it difficult to reconcile their experience with their longings and desires With so much uncertainty where can we find a true vision of the Good Life *Learning the Good Life* speaks to this malaise with a

curated collection of voices from the past inviting Christians into an ages old dialogue with some of history's wisest and most reflective minds. Featuring thought provoking writings from a diverse lineup of over 35 writers and thinkers. From the classic including Confucius, Augustine, Sor Juana Inés de la Cruz, Henry David Thoreau and Frederick Douglass. To the modern including W.E.B. DuBois, Flannery O'Connor, T.S. Eliot and Simone Weil. To the contemporary including Wendell Berry, David Foster Wallace and Marilynne Robinson. Together these sages, writers, philosophers, and poets address important issues such as virtue, beauty, community, wonder, suffering, and meaning. Each of these texts are introduced by experts from a variety of Christian colleges and universities to help provide a richer narrative in which Christians can participate. Each text is also accompanied by discussion questions to provoke further thought and contemplation and to facilitate discussion when used in groups. Learning the Good Life is ideal for any Christian seeking a deeper connection to the wisdom of the past and wanting a more cohesive vision of the good life. Though not all these writers were themselves Christians, they all have a message for you. All of them are calling you to die to yourself, to your habits of indulgence, to your pride and ambition, and to dedicate your time to learning, thinking, and loving.

Secret Horizon Uma Purighalla, M.D., Uma Purighalla, 2001-08-28. Alicia Thorne and a few others have been given a vaccine that can extend life span by centuries. Why then have so many people had to die for it? As a young doctor walks a desolate hospital hallway while working a lonely night shift, he realizes that he is being pursued. Cautiously, he writes a plea for help in the in-patient chart of Alicia Thorne. His small note is the key to finding out the horrid secret behind the vaccine and more importantly, how to destroy it. In spite of his efforts that night, the young doctor is murdered in the gross pathology department while Alicia Thorne is discharged from the hospital and her in-patient chart is carted away to Medical Records to collect dust until one hundred thirty two years later. Throughout the story, we catch glimpses of Dr. Holtz's life past, present, and future. We learn about Mr. Helfrick, a man who knows nothing of his beginnings nor if he will ever have an end. We later realize that he is patient zero and that it is through his cells that the vaccine is born. We learn of a future age conscious society far more sophisticated than our present society, yet all too familiar.

Sustainable Good Health and Well-being Torstein Hole, Marit Kvægarsnes, Bodil J. Landstad, Elise Kvalsund

Bårdsgjerde, Sandra Elizabeth Tippett-Spirtou, 2024-09-20. The purpose of this open access book is threefold. The first is to shed light on patient participation and health literacy for Good Health and Well-being, which is one of the UN's Sustainable Development Goals. Health literacy is considered a prerequisite for patients to be able to participate in shared decisions on their own treatment. WHO 1998. Health literacy has received increased international attention; the concept is linked to person-centred health services, sustainable resource utilization, health promoting and preventive health work, treatment of chronic diseases, and social inequality. WHO 2016. The second purpose is to provide health professionals and students with educational models for building health literacy for patients and relatives. This purpose is linked to Quality Education, one of the UN's sustainability goals. The third purpose is to present critical perspectives on the demand for sustainability in

healthcare services Both ethical dilemmas and philosophical reflections on patient participation health literacy and sustainability are presented The Norwegian definition of health literacy is as follows Health competence is a person s ability to understand assess and apply health information to be able to take knowledge based decisions related to one s own health This applies to both decisions related to lifestyle choices disease prevention measures self management of disease and use of the health and care service Helsedirektoratet 2020 The sustainability goal is clearly outlined in this definition although the organisational perspective on health literacy is lacking Patient participation leads to improved patient satisfaction and safety Castro Van Regenmortel Vanhaecht Sermeus Collins Britten Ruusuvuori Vahdat Hamzehgardeshi Hessam Vahdat et al 2014 Health literacy as well as patient participation are important aspects for sustainable development and good and effective healthcare services in the future
