Environmental Power Specialist Mayek Mavi, 2022-02-09 Growing up in Africa I know too well the influence of Chinese products in the continent From infrastructure to condiments Chinese products are everywhere in my home country We often refer to those products as fake but buy and use them anyway because we neither have the means to make our own nor get the best quality products elsewhere However I did not expect to see the same influence on the United States but that is the case hence the title *Environmental Power Specialist* for this book I am not sure about how many American products are made in America MIA and are being commercialized and sold in China but I know we have too many made in China MIC and too little MIA in the world That is power that is the environmental power China is currently wielding I think it is remarkable that China is able to control products almost any in the whole world I really do But that means complete dependence on China for surgical masks clothing electronics household goods transportation and much more That is not bad from the environmental power s perspective which is good for China But what about consumer safety What about American influence in manufacturing That is what *Environmental Power Specialist* is all about *The Corporate Directory of US Public Companies* 1994 Robert M.
