Perspective Helmut Koziol, 2015 **A Company's Right to Damages for Non-Pecuniary Loss** Vanessa Wilcox, 2016-09-01 Applying appropriate legal rules to companies with as much consistency and as little consternation as possible remains a challenge for legal systems One area causing concern is the availability of damages for non pecuniary loss to companies a disquiet that is rooted in the very nature of such damages and of companies themselves In this book Vanessa Wilcox presents a detailed examination of the extent to which damages for non pecuniary loss can be properly awarded to companies The book focusses on the jurisprudence of the European Court of Human Rights and English law with a chapter also dedicated to comparative treatment While the law must be adaptable Wilcox concludes that considerations of coherency certainty and ultimately justice dictate that the resulting rules should conform to certain core legal principles This book lays the foundation for further comparative research into this topic and will be of interest to both the tort law and broader legal community **The Limits of Expanding Liability: Eight Fundamental Cases in a Comparative Perspective** Christian

Basic Questions of Tort Law from a Germanic Perspective Helmut Koziol, 2012. This book seeks to produce answers to the basic questions of tort law in Europe from a comparative perspective. It is intended to provide a basis for comprehensive responses by representatives of other European legal families and jurisdictions outside Europe on the fundamental ideas in this book. The book gives an extensive introduction to the delictual and contractual law of liability and damages. Above all, the position of the law of tort within the overall system for the protection of legal goods is examined. The focus is on particularly controversial issues and new approaches. Not only is the relationship between breaches of obligations and torts examined, the basic requirements for a claim under tort law—damage and causation—are discussed. An extensive section is devoted to the elements of establishing liability, and the question of liability on the side of the victim (contributory responsibility) is looked at anew. A final section is devoted to the prescription of compensation claims.
