Read the text and answer the questions with complete sentences.

Basketball, a game that started with 18 men in a YMCA gymnasium in Springfield, Mass., has grown into a game that more than 300 million people play worldwide. The man who created this instantly successful sport was Dr. James Naismith.

Under orders from Dr. Luther Gulick, head of Physical Education at the School for Christian Workers, Naismith had 14 days to create an indoor game that would provide an "athletic distraction" for a rowdy class through the brutal New England winter. Getting close to the deadline, he struggled to keep the class' faith. His first intention was to bring outdoor games indoors, i.e., soccer and lacrosse. These games proved too physical and complicated. Finally, Naismith remembered a childhood game that required players to use skill and accuracy to become successful. After brainstorming this new idea, Naismith developed basketball's original 13 rules and consequently, the game of basketball.

As basketball's popularity grew, Naismith neither made any publicity nor engaged in self-promotion. He was first and foremost a physical educator who embraced recreational sport. Naismith was an intense student, collecting four degrees in the diverse fields of Philosophy, Religion, Physical Education and Medicine.

Although he never had the opportunity to see the game become the astonishing spectacle it is today, Naismith's biggest thrill came when he was sponsored by the National Association of Basketball Coaches (NABC) to witness basketball become an Olympic sport at the 1936 Games held in Berlin.
