money There are some legit ways that you can do this but unfortunately most out there are scams This book is compiled with a deep study into some of the specific scams We used thousands of dollars to attempt to purchase these money adders duplicators and generators Software that works for you and adds amounts of money in your account It looks great but most of these are nothing but lies and scams So before you even think of buying one of these software s get this book and see if they are on our list or look like a scam Some more sites are still under investigation and will update with another book as we have updates *Cyberscams* James Elliott, 2007 When you walk out onto the street you don t expect to be hit by a bus but you know it could happen It s a different story when you re on the Internet though you should expect scam emails In order for you to defend your self you need to know the who what where how and why about Internet scams Learn WHO is running these scams WHAT are they doing and how do they do it WHERE are these people located HOW do they get your personal details and what they do with this information WHY do they do it BUT most importantly this book will show you what scams

Michael Ford,2007-01-01 There are plenty of books around that tell you how to buy and sell on eBay but they send you off with a blissful child like confidence that will only lead to heartache at best you may even lose thousands of dollars or worse What are you supposed to do if something goes wrong and you do not receive what you paid for or you sell to someone and the dishonest buyer files a false complaint what if you received a worthless piece of junk instead of what you paid for Unfortunately most people accept the loss and move on because they do not know what options are available and most importantly they did not know that almost all fraud on eBay could be avoided if they knew the simple warning signs Don t be a victim Almost all scammers both professional and amateur have certain elements in their auctions that can identify them as criminals before you even place a bid There are almost 200 common scams on eBay and every one can be identified IF you know what to look for This entertaining and sometimes frightening book reveals how scammers work and how you can avoid them as both a buyer and seller on eBay It relates personal stories about fraud and vindication It also explains what you can do if you have been the victim of fraud plus what you can do to protect yourself should a purchase go bad This book is for anyone who uses eBay Even veteran buyers and sellers often don t know how to spot a fraudulent auction or recognize a buyer who will be trouble later Your risk is much more than the 20 you might lose on a purchase as well Professional criminals use eBay to gather victims for other scams A 20 transaction could wind up costing you 20 000 00 zapped right out of your bank account before you realize it Even intelligent members can find themselves victims of these polished and rehearsed scammers Don t be intimidated by eBay It can be safe fun and profitable but only when you know how to use it safely Read Scams and Scoundrels now to find out how to trade safely on eBay **60 scam in the MENA region Keep an eye out for them**
