Brush With Catastrophe:

Managing Catastrophic Disaster Risks Using Alternative Risk Financing and Pooled Insurance Structures John D. Pollner, 2001-01-01 This report examines the existing constraints and opportunities to implement a catastrophe insurance system which can resolve the key obstacles currently impeding broader implementation of a risk funding approach The four main pillars in such a strategy involve strengthening the insurance sector regulatory requirements and supervision establishment of broad based pooled catastrophe funding structures with efficient risk transfer tools promoting public insurance policies linked to programs for loss reduction in the uninsured sectors and strengthening the risk assessment and enforcement of structural measures such as zoning and building code compliance

Emerging from the Rubble:

Asian/American Writings on Disasters Yasuko Kase, Eliko Kosaka, 2025-08-12 With a focus on the transpacific and transnational relationship between North America and Asia *Emerging from the Rubble Asian American Writings on Disasters* explores Asian Americans complex and nuanced involvement in disastrous events Included in this purview of disaster are not only the damages and threats of current ongoing climate change but also the long lasting ruining effects inflicted by imperialism neo colonialism wars and these historical components entanglement with global capitalism that have generated both spontaneous and slow and or prolonged violent effects Moreover disasters can be acknowledged as manifestations of the Anthropocene an epoch shaped by human activity or what scholars like Jason W Moore and Donna J Harraway term the Capitalocene a paradigm where nature and capitalist society are deeply intertwined co creating an intricate web of life Asian American involvement in such a web has never been simple but convoluted some of them have experienced tremendous losses whereas others have perpetuated obfuscation of the truth and or induced violence often contingently with or without acknowledging the facts When considering Asian migrants including refugees from Southeast Asia who had little option but to seek asylum in the U S and Asian Americans who have pursued their happiness under the U S s capitalist premise of constant progress protection of human rights and freedom of choice it is important to note that Asian migrants and Asian Americans have become simultaneously active players and exploited individuals within the context of U S racial capitalism Acknowledging the impossibility of clearly differentiating natural and human made disasters scholars who contribute to this volume note the reciprocal influences between nature and civilization They examine how the entanglements of natural and human made disasters lead to the acceleration and expansion of damage This volume explores how Asian Americans connections with their ancestral origins along with their particular racial positions social classes and socio historical backgrounds in North American societies force them to experience and witness disastrous events differently from the mainstream discourse on eco crises
