

## Answering the Essay/Short Answer Exam Question

### What does your professor expect?

Many faculty members include short-and long-answer essay questions as a part of their major exams. What does the faculty member expect from your answer?

1. **Your essay answers the question.** In an essay exam, most professors want more than just the facts. Your grade will be determined by how well you demonstrate your knowledge of the facts and your understanding of those facts in a greater context (i.e. *how these facts affected a period of history, how the introduction of this organism into the ecosystem effects the environment, how this sequence of events led to the development of...*).
2. **Your answer is well written.** Most professors will look for specific elements when reading an essay exam. These are the building blocks of a good exam essay and include:

**FOCUSED:** Your answer should answer all parts of the question without a lot of random ideas which have little or nothing to do with the question. Students often think that adding random facts or ideas will help improve their grade because they know them. The opposite is true — adding random, unrelated ideas or facts almost always result in the reduction of points from your grade.

i.e.  
PURPOSEFUL ...  
DIRECTED ...  
CENTERED ...  
POINTED

**STRUCTURED:** You know the answer to the question but your ability to communicate that knowledge to your professor depends on how well you structure your answer. Take the time to make a rough outline of what you want to write and in what order you want to present it. Always begin with a "thesis statement" and end with a "conclusion". Stream of consciousness writing (putting things on paper as you think of them) will result in a mediocre grade at best.

i.e.  
ORGANIZED ...  
PLANNED ...  
TIGHT ...  
APPROPRIATE ...  
THOUGHT-OUT

**DOCUMENTED:** Contrary to the True/False or Multiple Choice Question, your essay answer must go beyond a simple statement of fact. The professor is looking for the correct answer, yes, but more importantly, for your understanding of the answer. So, always include relevant facts, figures, examples, and tests (*the phosphate test showed a pH of ...*), etc. With the essay question

i.e.  
TEST RESULTS ...  
DATA ...  
PROOFS ...  
SPECIFICS ...  
EVIDENCES
