

THE GREAT IDEAS

THOMAS MALTHUS

*An Essay on the Principle of
Population and Other Writings*

And Principle Population Writings Penguin Classics

Waterstone & Co

And Principle Population Writings Penguin Classics:

An Essay on the Principle of Population and Other Writings Thomas Malthus, 2015-06-04 Malthus's work on human population and its dependency on food production and the environment was highly controversial on publication in 1798. He predicted what is known as the Malthusian catastrophe in which humans would disregard the limits of natural resources and the world would be plagued by famine and disease. He significantly influenced the thinking of Darwin and Alfred Russel Wallace and his theories continue to raise important questions today in the fields of social theory, economics, and the environment. With an introduction by Robert Mayhew. *Penguin Classics* Penguin (Firm), 1999

Women Writing Men Joanne Ella Parsons, Ruth Heholt, 2022-06-08 This book explores how women writers create and question men and masculinity. As men have written women, so have women written men. Debate about how men have represented women in literature has a long and distinguished history; however, there has been much less examination of the ways in which women writers depict male characters. This is clearly a notable absence given the recent rise in interest in the field of 18th and 19th century masculinities. Women writers were in a unique position to be able to deconstruct and examine cultural norms from a position away from the centre. This enabled women to look askant at masculinity using their female gaze to expose the ruptures and cracks inherent within the rigid formation of the manly ideal. This collection focuses on women's representations of men and masculinity as they negotiate issues of class, gender, race, and sexuality. *Women Writing Men 1689 to 1869* will be of interest to academics, researchers, and advanced students of Literature, Gender Studies, Critical Theory, and Cultural Studies. The chapters in this book were originally published as a special issue of *Women's Writing*. **Reader's Guide to the History of Science** Arne Hessenbruch, 2013-12-16 The *Reader's Guide to the History of Science* looks at the literature of science in some 550 entries on individuals, Einstein, institutions, and disciplines. Mathematics, general themes, Romantic Science, and central concepts, Paradigm and Fact. The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn.

What Price the Poor? Ann M. Woodall, 2017-05-15 In this fascinating book, Ann Woodall investigates and compares the work and thought of William Booth and Karl Marx, who both arrived in London in 1849. She draws comparisons between their responses to the intractability of the poverty of the submerged tenth of London's population and argues that Booth's pioneering work in establishing the Salvation Army and the development of Marx's economic theory began in their interactions with the London residuum. Each recognised that much of the suffering was caused by the workings of laissez faire capitalism and that its total solution required a challenge to the existing economic system. *What Price the Poor?* raises important questions about the relationship between theological discourse and the sociological imagination and it firmly places the development of theoretical and practical social analysis and application within the context of social history. It will appeal to all with interests in classical sociology and the history of social activism. *Contemporary Thought on Nineteenth*

Century Socialism Ophélie Siméon, 2020-12-14 This first volume will showcase the richness and diversity of the Owenite movement which spanned decades from Owen's first published books in 1813-16 to the late 1840s political allegiances, genders and continents. This volume therefore calls for a variety of sources not easily available elsewhere including books, pamphlets, correspondence and newspaper articles and a variety of often overlapping voices from Chartists to early co-operators, secularists, non-British Owenites and proponents of women's rights. The sheer range of Owenite ventures, intentional communities, co-operatives, labour exchanges and experiments in popular education will be covered, thus blending social and political history. The attempt to map the Owenite movement will eventually lead to the identification of its shared core principles and values: internationalism, co-operation, concepts of political change and above all, the ideal of community.

Subject Guide to Books in Print, 1991 *Malthus Revisited* John Tanton, 1998 **A Glossary for Local Population Studies** L. Bradley, 1978 **Population & Poverty Issues at the Dawn of the 21st Century** Stan D'Souza (S.I.), 2001 This publication brings together the shared international experience of demographers and social scientists with activists in the field of population and poverty. This publication will serve to clarify and reinforce the processes of human and integral development. **Philosophical Writings**, 1998 **Social Reform in England, 1780-1880** John Roach, 1978

The Social Contract, 1997 Waterstone's Guide to Books Waterstone & Co, 1988 *British Books in Print*, 1980 *Paperback Books for Young People* John Thomas Gillespie, 1977 *Anthropology, Population, and Development* Jagdish Chandra Sharma, 1995 Population growth and economic development are the two major issues which have engaged the attention of our planners and policy makers ever since India attained independence; however, equally important issues such as physical and mental health of people, nutrition, education, social inequality and poverty have not received the same attention. It is evidently due to lack of understanding on the part of those who matter that healthy and well-nourished people are the greatest national asset and a prerequisite for any sustainable development, whereas ignorance, superstition and social tension are the greatest impediments in the process of development. These facts have been emphasised time and again in most of the anthropological deliberations but with little effect on our planning processes and policies. Frontline, 1995

Paperbound Books in Print, 1991 **Survey of Social Science** Frank Northen Magill, 1994 v 1 A Culture and language v 2 Culture and technology Homelessness v 3 Horticultural economic systems The police v 4 Political action committees and special interest groups Social stratification analysis and overview v 5 Social stratification functionalist perspectives Z
