The background is a soft, out-of-focus white surface, possibly a bedsheet or a tablecloth. The lighting is warm and soft, highlighting the texture of the books and the fabric.

S Not In The Bible:

Whose Bible Is It Anyway? Philip R. Davies, 1995-01-01 The Bible argues this book may belong to the Church or synagogue as an instrument of religious practice But as the object of academic study it belongs to the world as a whole Confessional biblical studies belong to a discipline better termed scripture with biblical studies designating a discipline that imposes no religious conditions and includes any form of rational discourse about the bible A basic requirement of this discipline is to speak not of the Bible but of bibles A number of exegetical studies suggest how a genuinely academic discourse about biblical writings distancing itself from received canons of interpretation can expose a subtext of deceit within the creation narratives reconceptualize the relationship of Abraham and his deity reveal lament psalms as texts of oppression and identify the death of Daniel's God In new chapters for this second edition Davies evaluates how the film Monty Python's Life of Brian contributes to life of Jesus research Here is a challenge to conventional biblical scholarship and a bid to define and establish a genuine academic discipline of biblical studies

How to Read the Bible James L. Kugel, 2012-05-01 James Kugel's essential introduction and companion to the Bible combines modern scholarship with the wisdom of ancient interpreters for the entire Hebrew Bible As soon as it appeared How to Read the Bible was recognized as a masterwork awesome thrilling The New York Times wonderfully interesting extremely well presented The Washington Post and a tour de force a stunning narrative Publishers Weekly Now this classic remains the clearest most inviting and readable guide to the Hebrew Bible around and a profound meditation on the effect that modern biblical scholarship has had on traditional belief Moving chapter by chapter Harvard professor James Kugel covers the Bible's most significant stories the Creation of the world Adam and Eve Cain and Abel Noah and the flood Abraham and Sarah Jacob and his wives Moses and the exodus David's mighty kingdom plus the writings of Isaiah Jeremiah and the other prophets and on to the Babylonian conquest and the eventual return to Zion Throughout Kugel contrasts the way modern scholars understand these events with the way Christians and Jews have traditionally understood them The latter is not Kugel shows a naive reading rather it is the product of a school of sophisticated interpreters who flourished toward the end of the biblical period These highly ideological readers sought to put their own spin on texts that had been around for centuries utterly transforming them in the process Their interpretations became what the Bible meant for centuries and centuries until modern scholarship came along The question that this book ultimately asks is What now As one reviewer wrote Kugel's answer provides a contemporary model of how to read Sacred Scripture amidst the oppositional pulls of modern scholarship and tradition The Variorum Teacher's Edition of the Holy Bible William Sanday, Thomas Kelly Cheyne, Samuel Rolles Driver, Robert Lowes Clarke, Alfred Goodwin, 1886
