S Of The Bible List:

A Greek-English Lexicon of the New Testament and Other Early Christian Literature Walter Bauer, 2010-11-02
Described as an invaluable reference work Classical Philology and a tool indispensable for the study of early Christian literature Religious Studies Review in its previous edition this new updated American edition of Walter Bauer's Wörterbuch zu den Schriften des Neuen Testaments builds on its predecessor's staggering deposit of extraordinary erudition relating to Greek literature from all periods Including entries for many more words the new edition also lists more than 25 000 additional references to classical intertestamental Early Christian and modern literature In this edition Frederick W Danker's broad knowledge of Greco Roman literature as well as papyri and epigraphs provides a more panoramic view of the world of Jesus and the New Testament Danker has also introduced a more consistent mode of reference citation and has provided a composite list of abbreviations to facilitate easy access to this wealth of information Perhaps the single most important lexical innovation of Danker's edition is its inclusion of extended definitions for Greek terms For instance a key meaning of episkopos was defined in the second American edition as overseer Danker defines it as one who has the responsibility of safeguarding or seeing to it that something is done in the correct way guardian Such extended definitions give a fuller sense of the word in question which will help avoid both anachronisms and confusion among users of the lexicon who may not be native speakers of English Danker's edition of Bauer's Wörterbuch will be an indispensable guide for Biblical and classical scholars ministers seminarians and translators
