## Water Cycle

**Introduction** Precipitation, evaporation, and condensation are all terms that you recognize, but what do they really mean? They are all part of the water cycle, which is a complex process that not only gives us water to drink, and food to eat, but also helps our plants grow. Only about 3% of the Earth's water is fresh, and 3% of that water can be used for many human purposes. Why can't we use the other 97% of the fresh water found in the world? The find these answers and so much more, come along for an interactive journey through the water cycle!
