*History and Story in the American Political Thriller Film* Pablo Castrillo Maortua,2023-08-29 In this book Pablo Castrillo Maortua analyzes the emergence of the political thriller in Hollywood at a time of angst and turmoil in the United States The Cold War the nuclear age domestic and international scandals and an increasingly deceitful political culture catalyzed a filmmaking current that would gradually develop its own narrative form and aesthetics into a new genre Castrillo Maortua explores the dramatic identity and design of the American political thriller tracking the close correlation between the evolution of the genre and the history of the United States from the Cuban Missile Crisis to the 9 11 terrorist attacks and the ensuing War on Terror Ultimately the author demonstrates how the American political thriller defies Hollywood conventions and cultural presuppositions with an entertaining yet critical view of the state of politics Scholars of film studies

screenwriting and genre theory will find this book of particular interest *Compromise Formations* Vera J. Camden,1989 These essays are collected from the Fourth International Conference on Literature and Psychology held at Kent State University 7 9 August 1987 In selecting the essays for this first collection to emerge from the varied conferences now being sponsored by the Kent State University Center for Literature and Psychoanalysis Vera Camden has brought together representative contributions from two major contemporary schools of psychoanalytic criticism object relations and Lacanian theory These essays define the questions which emerge when both schools are brought into the kind of association engendered by this conference offering not so much a resolution to opposing positions as a fuller articulation of the space each occupies and a fluidity of discussion which has characterized psychoanalysis since Freud s earliest discoveries Each contributor is concerned with the place of the unconscious in the determination of the human subject and its representations Whether the approach is primarily clinical or literary each identifies and analyzes the anguish of the incomplete self a self which looks to construct identify regain or even deny meaning A crucial difference emerges among these authors as to how the experience of human alienation and the quest for identify is to be analyzed Some would suggest after Jacques Lacan that the task of analysis is to recognize the illusion of the unitary self and to reconcile the individual to that state Others would contend the task of analysis is to recover by the transference relationship the lost unity missing in childhood and reflect in adult object relations These essays range from clinical perspectives in psychosis and creativity to critical readings of Joyce and Shakespeare to recent applications of brain research to traditional psychoanalytic notions of the human subject The richness and variety in this collection bear witness to the continuing impact of psychoanalysis on literary and cultural studies

**Greek Tragic Style** R. B. Rutherford,2012-05-10 Greek tragedy is widely read and performed but outside the commentary tradition detailed study of the poetic style and language of Aeschylus Sophocles and Euripides has been relatively neglected This book seeks to fill that gap by providing an account of the poetics of the tragic genre The author describes the varied handling of spoken dialogue and of lyric song major topics such as vocabulary rhetoric and imagery are

considered in detail and illustrated from a broad range of plays The contribution of the chorus to the dramas is also discussed Characterisation irony and generalising statements are treated in separate chapters and these topics are illuminated by comparisons which show not only what is shared by the three major dramatists but also what distinguishes their practice The book sheds light both on the genre as a whole and on many particular passages *Motion Picture Herald* ,1927
