Noir Affect Christopher Breu, Elizabeth A. Hatmaker, 2020-06-02 *Noir Affect* proposes a new understanding of noir as defined by negative affect This new understanding emphasizes that noir is first and foremost an affective disposition rather than a specific cycle of films or novels associated with a given time period or national tradition Instead the essays in *Noir Affect* trace noir's negativity as it manifests in different national contexts from the United States to Mexico France and Japan and in a range of different media including films novels video games and manga The forms of affect associated with noir are resolutely negative These are narratives centered on loss sadness rage shame guilt regret anxiety
