2014 Exemplar Life Orientation:

The Partisan Next Door Ethan C. Busby, Adam J. Howat, Jacob E. Rothschild, Richard M. Shafranek, 2021-09-29 In the United States politics has become tribal and personalized. The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box. To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans. Using data from surveys, experiments and Americans' own words we explore the content of partisan stereotypes and find that they come in three main flavors: parties as their own tribes, coalitions of other tribes or vehicles for political issues. These different stereotypes influence partisan conflict: people who hold trait-based stereotypes tend to display the highest levels of polarization while holding issue-based stereotypes decreases polarization. This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity. A turn to what we call responsible partisanship.

Sexuality in Marketing and Consumption Athanasia Daskalopoulou, Daniela Pirani, Jacob Ostberg, 2024-08-09 This volume provides an in-depth examination of the role of sexuality in consumers' life course and in the marketing of products and services. Leading scholars in the field define the most up-to-date picture of theories of sexuality in marketing and consumer research, mapping the topic through diverse theoretical lenses addressing queer and feminist research and putting sexuality and consumption in context. The book brings together leading international marketing scholars to build on the growing interest in theories of sexuality, queer theory and intersectionality which are gaining more interest among institutions and researchers interested in equality and diversity. While this book builds on existing expertise in consumer culture scholarship, it is the first time a marketing book focuses on sexuality, adding value to the existing repertoire in gender and feminist literature. The chapters are organised into three key sections. Part 1 maps the marketing and consumer research field, discussing how sexuality can be studied through different lenses. Part 2 focuses on queer and feminist theorising, drawing on LGBTQIA theory, queer theory and theories of intersectionality to analyse how overlapping social categories interact to influence consumer behaviour, identity and experiences in the marketplace. Part 3 explores the personal and social aspects of sexuality, offering a broad overview of issues of gender and sexuality, digitalisation and the sexual body. This text will be of direct interest to scholars and researchers within the fields of marketing, consumer research, sociology and media studies. The aim of this book is to help scholars and students to develop a broader understanding about the interplay between sexuality, society and the market.

The Handbook of Personalized Persuasion Richard E. Petty, Andrew Luttrell, Jacob D. Teeny, 2025-02-19 The Handbook of Personalized Persuasion provides the most comprehensive and state of the art review of the expansive literature on personalized messaging in persuasion. The book describes what features of people, messages, and contexts are most effective for personally tailored communication and how this knowledge can be leveraged to improve the influence of messaging in any domain. It also addresses when such personalization can be counterproductive or backfire. Bringing together some of the foremost experts in the area, the book consists of a diverse global and interdisciplinary set of scholars who tackle the theory and application of personalized persuasion. Organized into two sections, the first part of this book addresses the many aspects of people to which messages can be targeted such as the basis of a person's attitude or the person's goals or identity. The second part of this book tackles the many important areas of application in which personalized messaging has been examined such as political and health messaging, consumer advertising, and even online misinformation. This handbook is essential reading for researchers and students in social psychology and across the behavioral and social sciences while also offering practitioners in marketing, government, and beyond the most cutting edge insights into how to maximize the influence of personalized persuasion.
