Dr. Harrison Sachs,2021-02-11 This essay sheds light on how to become a consultant explicates how to be highly successful as a consultant and elucidates how to earn revenue as a consultant While becoming a consultant may seem be an eminently cumbersome expensive time consuming and daunting undertaking it is viably possible to become a consultant Much to the relief of prospective consultants it is possible to become a consultant in a time span of less than half of a decade and the journey to become a consultant is not as lengthy as the journey to pursue certain other occupations such as the occupations of a medical doctor or attorney The pathway that a prospective consultant can follow to become a consultant is fraught with challenges that are not a cinch to surmount It can be arduous to fulfill the duties of a consultant Consultant skills are highly desirable skills to possess As of February of 2021 only an infinitesimal fraction of one percent of the global population are employed as consultants in the U S for instance less than 2 175 500 are employed as consultants even though the U S population is comprised of over 328 000 000 people as of February of 2021 As of February of 2021 less than 663% of people in the U S are employed as consultants This means that out of 151 random people in the U S about only one person at most would be employed as a consultant as of February of 2021 As of February of 2021 it was estimated that there were more medical doctors and attorneys as an aggregate in the U S than consultants in the U S even though it takes far more years to fulfill the ample mandatory requirements to become a medical doctor or attorney than it takes to fulfill the mandatory requirements to become a consultant As of February of 2021 there are no mandatory requirements that need to be fulfilled for a person to become a consultant As of February of 2021 the economy is unequivocally in dire need of more consultants especially since they are able to help companies to ameliorate their operational efficiencies Having subpar operational efficiencies amplifies a company s operating costs Neglecting to optimize operational efficiencies can undermine a company s

Disruptive consulting: How to consistently earn \$850/hour as a consultant Adriaan Brits, 2015-11-09 Disruptive consulting How I consistently earn 850 hour as a consultant A consulting career offers unrivalled freedom and flexibility Proliferated by the mindset of alliance rather than employment which has gripped the corporate world it has become an increasingly desired occupation for most professionals Today more than ever corporates are aware of the benefits consulting offers namely access to a fresh perspective and expertise without the need to commitment or to involve a new player in the intricate sensitive or political aspects of the organization It really is a win win to both the consultant and the client however many consultants are yet to find a strategy to make sure their diaries duly overbooked In this publication I am going to share with you how I consistently earn 850 hour as a solo consultant with clients chasing me to fill up my diary Just as Amazon disrupted retail and Airbnb disrupted hotels this publication is about how to disrupt the consulting industry You will learn powerful effective hacks to obtain highly paid consultancy work It is therefore assumed that you are already competent and professional in your field but that you are lacking opportunities for consulting and need a proven way to make sure clients will chase you for business and not the other way around However in this publication we are not going to focus on how to become competent in your field how to behave properly and professionally towards clients or for that matter how to draw up a legal agreement It is therefore not intended as a guide for incompetent individuals to pretend that they are consultants and to get paid for it Neither is it intended as a guide on how to access large pots of government funding without reciprocating value The good news is that the following four activities does not form part of this proven strategy at all

- 1 Spending any money on advertising
- 2 Making any cold calls
- 3 Begging for referrals
- 4 Working as a slave for Facebook or any other social media platform to get noticed

Since my background is in marketing I established a way of making my marketing activities self funded or as the CIA would call it living of the land In fact by the time a potential client contacts me most of the selling has already been done and it is more a matter of determining whether the client will be a good fit for me or not In all honesty whilst I have a MSC in Marketing and owned a few companies I would not go as far as to describe myself as the world's leading authority on consulting however I have developed one of the most innovative ways to ensure that my diary is ALWAYS full and that I can decline any work which I do not think is going to be a good fit The model that we are going to discuss is perfectly suitable for consultants in the areas of Business Finance IT Marketing Sales Security and a range of professions Whether you are a technical business

or executive consultant the principles will still apply Please read my feedback on various digital channels before starting with the book Enjoy your newly found profession *How to Make It Big as a Consultant* William A. COHEN Ph.D.,2009-06-03
