Improvement Of Forest Resources For Recyclable Forest Products:

Improvement of Forest Resources for Recyclable Forest Products T. Ona, 2011-06-28 It is an honor and pleasure for me to write the foreword of this book comprising the of Forest Resources for proceedings of the Fourth Symposium on the Improvement Recyclable Forest Products The symposium was organized by Dr Toshihiro Ona Associate Professor at the Graduate School of Bioresource and Bioenvironmental Sciences Kyushu University Japan as part of the Development of Forest Resources with High Performance for Paper Recycling research project This was supported by the Core Research for Evolutional Science and Technology CREST team at the Japan Science and Technology Agency Foundation IST and by Kyushu University As a colleague of Dr Ona I commend his efforts in organizing the symposium and editing this book In the forest there is a multitude of resources including trees herbal plants fruits fungi mammals birds insects fishes reptiles water landscapes and tourist attractions Nowadays even the environment is regarded as a kind of forest resource These resources can provide a diversity of forest products such as timber for buildings pulp and paper charcoal herbal medicines wild vegetables animal protein edible mushrooms and nonwoody fibers From these resources major forest products are produced using various species of trees For example softwood is suitable as building material while hardwood is suitable for furniture production pulp and paper are produced from both softwood and hardwood Therefore forest locations and forest management methods should vary according to the tree species used for production of different forest products Forest Resource Report United States. Forest Service, 1967 A Guide to USDA and Other Federal Resources for Sustainable Agriculture and Forestry Enterprises Romana A. Vysatova, Laurie S. Z. Greenberg, 1998 **building better rural places** ,

Forest Service Programs, Authorities, and Relationships Ervin G. Schuster, 2003 The Forest and Rangeland Renewable Resources Planning Act RPA of 1974 as amended directs the Forest Service to prepare and update a renewable resources assessment that would include a description of Forest Service programs and responsibilities their interrelationships and the relationship of these programs and responsibilities to public and private activities The first description was part of the RPA Assessment document in 1979 The second was published as an independent support document in 1989 This third description is organized around major Forest Service programs within the National Forest System State and Private Forestry and Research and Development Programs and responsibilities within International Programs Law Enforcement and Investigations Capital Improvement and Maintenance along with Senior Youth and Volunteer Programs are also discussed Each section discusses major program areas legal authorizations administrative and organizational considerations and relationships within the Forest Service and with outside organizations A listing of major legislative authorities is provided General Technical Report RMRS , 1998 *Department of the Interior and Related Agencies Appropriations for 1999* United States.
