Apologetics Beyond Reason Why Seeing Really Is Believing:

Apologetics Beyond Reason James W. Sire, 2014-07-14 In this accessible and engaging work veteran apologist Jim Sire gives us eyes to see the signs all around us that point to the specific truth of God in Christ Sire focuses on the power of good literature even from those who deny the existence of God to enable us to perceive and testify to God's reality in ways that rational argument alone cannot

Cultural Contextualization of Apologetics Matt W. Lee, 2022-03-03 In the post-Christian world we find sincere efforts in traditional Christian apologetics repeatedly running into invisible walls These blocks happen when cultural issues are neglected With mere rational arguments presented as a defense of Christianity logical answers alone are not attracting the nonbelievers nor resolving their skepticism People today have different obstacles in coming to the Christian faith particularly their own cultural presuppositions How do we present defend and commend Christianity to people whose culture gives them a frame of mind the one that cares very little about how rational the arguments are Cultural Contextualization of Apologetics explores the world of the New Testament and the ministry of the apostle Paul to excavate a fresh model for apologetics with cultural engagement to present an answer Matt W Lee analyzes the dynamics involved in Paul's cultural connection with his audience and how it relates to their receptivity uncovering a scheme of apologetics engagement patterned in his apologetics speeches From the background of Paul's world to the forefront of contemporary apologetics preaching Cultural Contextualization of Apologetics offers a vision of apologetics communication that is both biblical and practical

A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

Other Watchful Dragons Jonathan M. Parker, 2026-01-08 Authors C S Lewis and J R R Tolkien have captured the imagination of millions of readers across languages and cultures with unforgettable stories enchanting the familiar and transforming the way we look at lions lampposts and rings They have also touched the way many see weightier matters of life

moral brokenness and death As powerful as they are fantasy stories are primarily created for the imaginative delight of the author and the reader and they are good in and of themselves But are there secondary goods for stories like The Chronicles of Narnia One lesser known potential is that stories like these can powerfully communicate across cultures More importantly they can help people understand and appreciate the wonder and truth of the Christian worldview for the first time or with fresh insight Part of what got C S Lewis s attention as an atheist was George MacDonald s fantasy Phantastes Other Watchful Dragons shows some of the best ways narrative contributes to cross cultural apologetics through The Chronicles of Narnia But greater still the path there involves an exploration of the powers of narrative seen in renowned writers George MacDonald J R R Tolkien and C S Lewis as well as contemporary scholarship

Calvinism for a Secular Age Jessica R. Joustra, Robert J. Joustra, 2022-02-08 Pastor politician and Dutch Neo Calvinist theologian Abraham Kuyper s lectures on the role of Christian faith in politics science and art have become a touchstone of contemporary Reformed theology Revisiting these lectures Jessica and Robert Joustra bring together theologians historians scientists and others to consider Kuyper s ongoing importance and complex legacy for today

Apologetics beyond Arguments Emil Børty Nielsen, Christian apologetics is often seen as the art of defending the truth of the Christian faith through arguments As a result most books focus on debating evidence Apologetics Beyond Arguments breaks new ground by addressing a critical gap the lack of methodological reflection in the field This book presents a fresh meta apologetic framework redefining apologetics as the practice of Christian persuasion By doing so it opens the door to new insights and questions drawn from fields such as rhetoric psychology and ethics bridging the gap between sound arguments and effective persuasion

The Possibility Of Resurrection And Other Essays In Christian Apologetics Peter van Inwagen, 1998 Notre Dame philosopher Peter van Inwagen became a Christian at the age of 40 His conversion was not a return to a religion of his childhood but instead a full embrace of beliefs held in contempt by colleagues and the intellectually hostile environment of his upbringing This collection of classic writings represents van Inwagen s attempts to answer the philosophical objections to Christianity that he has encountered since his conversion

Why We Believe Léon Cristiani, 1959 Defines both traditional and modern apologetics as the science which has as its purpose to demonstrate the divine nature of Christianity and whose aim is the bring to life faith and hope Considering the two main complementary aspects of apologetics the negative and historical aspect which consists in rebutting hostile attacks and the positive modern aspect which emphasizes the proofs of the divinity of Christianity the author underlines the attitude of the Church which maintains that proofs be presented for all that which is of its nature provable but holds that at the same time it is quite in the nature of things that much of that which concerns God should lie beyond the scope of our minds and for man s reason may be shrouded in obscurity
