Jackson, 2012 *Meteorology Today* 1st Canadian edition is the first textbook of its type written specifically with the needs of the Canadian market and its unique meteorological environment in mind. This first Canadian edition builds upon the tried and tested strengths of the Ahrens Meteorology series and provides a more relevant resource for Canadian students and instructors by ensuring that Canadian content practices, conventions and examples are used throughout. An Earth Systems feature, the first of its kind in Ahrens, has been developed for this edition presenting the interconnectedness of elements and providing a peek at the chapter content. This visual table of contents highlights the Earth system components reflected in each chapter: the atmosphere, hydrosphere, cryosphere, lithosphere, biosphere and anthrosphere. The relationships between the chapter's content and Earth systems are further expanded upon in the introduction of each chapter.

**Jackson**, 2012 *Meteorology Today* C. Donald Ahrens, 2003 *METEOROLOGY TODAY* has for many years been one of the most widely used and authoritative texts for the introductory meteorology course. Each edition is extensively reviewed by leading researchers in the field to ensure that the text remains completely up to date and reflects today's current understanding of meteorological concepts. Author Donald Ahrens has been widely praised for his ability to explain relatively complicated ideas so that even under prepared students can understand them. Introductory stories found at the beginning of each chapter draw students naturally into the discussion. In chapter reviews then help students to consolidate their understanding as they read while four types of end of chapter exercises provide opportunities for everything from further review to in class discussion questions. Graphics are carefully designed and subsequently refined so that the key ideas clearly emerge. Many of the photos in the book are taken by the author and provide unmatched images of dramatic weather phenomena.
