The challenge is that few people stop to define why innovation is important, to understand what's driving the need for more innovation. We all agree that more frequent innovation is important, even necessary. In addition, these tools will help you ask your competitors' customers about what makes them happy with the current businesses and offerings in the industry, why they buy or do not buy from you, your competitors and other industries. These tools will help you understand the steps in the customer journey they need to take, what delights and frustrates them, and what their pain points are.
