Managing Emotion in Byzantium Margaret Mullett, Susan Ashbrook Harvey, 2022-09-30 Byzantinists entered the study of emotion with Henry Maguire's ground breaking article on sorrow published in 1977 Since then classicists and western medievalists have developed new ways of understanding how emotional communities work and where the ancients concepts of emotion differ from our own and Byzantinists have begun to consider emotions other than sorrow It is time to look at what is distinctive about Byzantine emotion This volume is the first to look at the constellation of Byzantine emotions Originating at an international colloquium at Dumbarton Oaks these papers address issues such as power gender rhetoric or asceticism in Byzantine society through the lens of a single emotion or cluster of emotions Contributors focus not only on the construction of emotions with respect to perception and cognition but also explore how emotions were communicated and exchanged across broad multi linguistic political and social boundaries Priorities are twofold to arrive at an understanding of what the Byzantines thought of as emotions and to comprehend how theory shaped their appraisal of reality *Managing Emotion in Byzantium* will appeal to researchers and students alike interested in Byzantine perceptions of emotion Byzantine Culture and medieval perceptions of emotion

from ancient sources are translated into English , **The Dark Side: Philosophical Reflections on the “Negative Emotions”** Paola Giacomoni, Nicolò Valentini, Sara Dellantonio, 2021-04-02 This book takes the reader on a philosophical quest to understand the dark side of emotions The chapters are devoted to the analysis of negative emotions and are organized in a historical manner spanning the period from ancient Greece to the present time Each chapter addresses analytical questions about specific emotions generally considered to be unfavorable and classified as negative The general aim of the volume is to describe the polymorphous and context sensitive nature of negative emotions as well as changes in the ways people have interpreted these emotions across different epochs The editors speak of the dark side of the emotions because their goal is to capture the ambivalent unstable and shadowy aspects of emotions A number of studies have taken the categorial distinction between positive and negative emotions for granted suggesting that negative emotions are especially significant for our psychological experience because they signal difficult situations For this reason the editors stress the importance of raising analytical questions about the valence of particular emotions and focussing on the features that make these emotions ambivalent how despite their negativity such emotions may turn out to be positive This opens up a perspective in which each emotion can be understood as a complex interlacing of negative and positive properties The collection presents a thoughtful dialogue between philosophy and contemporary scientific research It offers the reader insight by illuminating the dark side of the emotions *Visions and Faces of the Tragic* Paul M. Blowers, 2020-06-11 Despite the pervasive early Christian repudiation of pagan theatrical art especially prior to Constantine this monograph demonstrates the increasing attention of late ancient Christian authors to the genre of tragedy as a basis to explore the complexities of human finitude suffering and mortality in relation to the wisdom justice and providence of God The book argues that various Christian writers particularly in the post Constantinian era were keenly devoted to the mimesis or imaginative representation of the tragic dimension of creaturely existence more than with simply mimicking the poetics of the classical Greek and Roman tragedians It analyses a whole array of hermeneutical literary and rhetorical manifestations of tragical mimesis in early Christian writing which capitalizing on the elements of tragedy already perceptible in biblical revelation aspired to deepen and edify Christian engagement with multiform evil and with the extreme vicissitudes of historical existence Early Christian tragical mimetics included not only interpreting and often amplifying the Bible's own tragedies for contemporary audiences but also developing models of the Christian self as a tragic self revamping the Christian moral conscience as a tragical conscience and cultivating a distinctively Christian tragical pathos The study culminates in an extended consideration of the theological intelligence and accountability of tragical vision and tragical mimesis in early Christian literary culture and the unique role of the theological virtue of hope in its repertoire of tragical emotions

interpretation theological treatises and Coptic monastic and apocryphal literature Crislip explores how emotions such as envy anger sadness and joy influenced Christian life and thought The book highlights how early Christians saw emotions as both spiritual challenges and tools for moral growth Discussions of figures like Evagrius of Pontus and Shenoute showcase how emotional regulation community and identity were central to monastic life The volume offers new insights into the emotional landscape of late antiquity

Friendship and Benefaction in James Alicia J. Batten, 2017-06-23 Now available from SBL Press Employing social description social scientific models and rhetorical analysis Alicia J Batten argues that the letter of James is conversant with the topic of friendship within Greek and Roman literature as well as within various texts of early Christianity She illustrates how James drew upon some of the language and concepts related to friendship with an intriguing density to advocate resistance to wealth avoidance of rich patrons and reliance upon God Features Use of friendship benefaction and patronage as lenses through which James and related texts can be viewed A strong case for how the letter appeals to the language and ideas of friendship with regard to God s relationships with humans Exploration of the relationship between the book of James and the teachings of Jesus

Saïd,2006 Karl Marx observed that just when people seem engaged in revolutionizing themselves they anxiously conjure up the spirits of the past to their service While the Greek east under Roman rule was not revolutionary perhaps in the sense that Marx had in mind it was engaged in creating something that had not previously existed in part just through the millennia long involvement with its own tradition which was continually being remodelled and readapted It was an age that was intensely self conscious about its relation to history a consciousness that manifested itself not only in Attic purism and a reverence for antique literary models but also in ethnic identities educational and religious institutions and political interactions with and even among the Romans In this volume which represents a selection of the papers presented at the colloquium Greeks on Greekness The Construction and Uses of the Greek Past among Greeks under the Roman Empire held at the Center for Hellenic Studies on 25 28 August 2001 seven scholars explore some of the forms that this preoccupation with the Greek past assumed under Roman rule Taken together the chapters in this volume offer a kaleidoscopic view of how Greeks under the Roman Empire related to their past indicating the multiple ways in which the classical tradition was problematised adapted transformed and at times rejected They thus provide a vivid image of a lived relation to tradition one that was inventive rather than conservative and self conscious rather than passive The Greeks under Rome played with their heritage as they played at being and not being the Greeks they continually studied and remembered *Pursuing the Good* Douglas L. Cairns,Fritz-Gregor Herrmann,Terry Penner,2007 This volume combines articles on the ethics epistemology and ontology of Plato and the influence of his thinking on Aristotle and beyond *Gestures* Geoffrey W. Bakewell,James P. Sickinger,2003 These thirty essays were presented to Alan L Boegehold a distinguished philologist and an inspirational teacher on the occasion of his retirement and his seventy fifth birthday The contributions fall into two categories each one reflecting Boegehold s diverse interests in classical studies the first section includes essays on literary and philosophical topics several of which pick up on the theme of gestures the second section is representative of Boegehold s more specialised research in Greek epigraphy history and law
