Wickham-Jones,2014-04-30 The archaeological sites of Orkney give us an unparalleled glimpse into prehistory Inscribed as
the Heart of Neolithic Orkney World Heritage Site in 1999 four great monuments the village of Skara Brae the Ring of
Brodgar the Stones of Stenness and the burial mound of Maeshowe are also at the center of the archipelago s story This book
looks at what makes these monuments so special Caroline Wickham Jones explores the Neolithic world in which they were
built how they came to be a focus through the ages and what they mean today Picts saints Vikings antiquarians and tourists
populate Orkney s past a history which is channeled through these dances of stones This new second edition replaces the
highly successful and widely used first edition which sold over 1 000 copies The text has been fully updated to take account
of recent discoveries and research including the now world famous site Ness of Brodgar In addition there are over thirty new
images including stunning photographs of Orkney s archaeology and landscape *Neolithic Scotland* Gordon
Noble,2006-06-19 This is an account of the Neolithic period in Scotland from its earliest traces around 4000 BC to the
transformation of Neolithic society in the Early Bronze Age fifteen hundred years later Gordon Noble interprets Scottish
material in the context of debates and issues in European archaeology comparing sites and practices identified in Scotland to
those found elsewhere in Britain and beyond He considers the nature and effects of memory sea and land travel ritualisation
island identities mortuary practice symbolism and environmental impact He synthesises excavations and research conducted
over the last century and more bringing together the evidence for understanding what happened in Scotland during this long
period His long term and regionally based analysis suggests new directions for the interpretation of the Neolithic more
generally After outlining the chronology of the Neolithic in Europe Dr Noble considers its origins in Scotland He investigates
why the Earlier Neolithic in Scotland is characterised by regionally distinct monumental traditions and asks if these reflect
different conceptions of the world He uses a long term perspective to explain the nature of monumental landscapes in the
Later Neolithic and considers whether Neolithic society as a whole might have been created and maintained through
interactions at places where large scale monuments were built He ends by considering how the Neolithic was transformed in
the Early Bronze Age through the manipulation of the material remains of the past Neolithic Scotland provides a
comprehensive approachable and up to date account of the Scottish Neolithic Such a book has not been available for many
