America Adrift Restoring The Promise Of Our Democracy:

America Adrift Lawrence Rosencrantz, 2011-11-14 This is a book about bringing us together about finding common ground so that we can address the grave challenges we face as a nation It explores the sources of our current discord and disarray and offers a path to resolution of the entrenched economic and political differences that are immobilizing us as a nation The mere election of new politicians or the creation of new political parties whether they promise more government action or less government interference will not move us forward if they are products of the same broken system And our democracy is badly broken *America Adrift* offers new thinking and new approaches so that we can unite regardless of party or polemic to restore the promise of our democracy and ensure a brighter future for all of our citizens **Listening for**

Democracy Andrew Dobson, 2014 Although much prized in daily conversation good listening has been almost completely ignored in that form of political conversation we know as democracy This book examines the reasons why so little attention has been paid to the listening aspect of democratic conversation explores the role that listening might play in democracy and outlines some institutional changes that could be made to make listening more central to democratic processes The focus on listening amounts to a reorientation of democratic theory and practice providing novel perspectives on enduring themes in democracy such as recognition representation power and legitimacy as well as some new ones such as silence Eschewing the pessimism of the realist turn in democratic theory the book shows how attention to listening can breathe life into the democratic project and help us to realise some of its objectives Drawing on practical examples and multidisciplinary sources the book shows how listening should be at the heart of representative and deliberative democracy rather than peripheral to them It develops a notion of dialogic democracy based on structured apophatic listening and meets the challenge of showing how this could be incorporated in parliamentary democracies What should we be listening out for This book addresses the question of political noise and uses the idea of recognition to develop an account of politics that takes us beyond the Aristotelian speaking being towards a Deweyan notion of the event around which publics coalesce **To Restore American**

Democracy Robert E. Calvert, 2006 At a time when democracy in America suffers from a profound sense of cynicism lack of trust and disengagement especially among young adults this book is a much needed antidote Here are original essays by some of the most distinguished and insightful political thinkers of our time No armchair observers they have advised presidents been public servants testified before Congress helped other countries draft constitutions worked as journalists and won teaching awards They participate ardently in the polity and civil society they write about here The main focus of the essays is what role universities might be able to play in reviving a sense of citizenship and civic responsibility in our society They represent different perspectives and differing opinions making this a rich stimulus for discussion and action At stake is nothing less than the future strength of democracy in the United States **The American Federationist**, 1948 Includes The Compassionate Rebel Revolution Burt separately paged Junior union section *American Federationist*, 1948
