Alice T. Friedman

American Art Deco Architecture And Regionalism:

[American Art Deco](#) Carla Breeze,2003 Art Deco architecture flourished in large cities and small towns throughout America in the 1920s and 1930s The style is now captured in over 500 color photos of 75 lavish and innovatively designed buildings across the country that have been preserved both outside and in giving the full scope of this beloved exciting style

[**The Grove Encyclopedia of American Art**](#) Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries [**Generational Mapping Through Phases**](#) Michael A. Susko,2025-05-25 In Generational Mapping Through Phases Bridging Ancient Civilizations U S and Ancestral Pueblo History Complete Three Volume Edition the author presents a novel approach to understanding history through the lens of generational mapping which reveals distinct phases This comprehensive work explores the rise transformation and legacy of six important historical traditions Ancient Egypt Ancient Israel Ancient Rome Medieval Modern Europe U S History and the history of the Ancestral Pueblo peoples of the American Southwest Divided into three volumes the series introduces the theory that ancient civilizations U S history and Indigenous histories long viewed through static or compartmentalized frameworks can be studied instead as dynamic evolving processes marked by generational phases In brief they are 1 Invisible Beginnings 2 Establishment and Testing 3 Consolidation and Opening Up to outside influences 4 Crisis and Creativity 5 Universalizing and Inclusion and 6 Renewal or Rigidification The work redefines how we engage with the past weaving together archaeology anthropology and historical analysis to map the interconnectedness of civilizations and the generational forces that shape them From the achievements of Ancient Egypt to the enduring presence of the Ancestral Pueblo peoples the generational method offers fresh insight into how time identity and transformation shape the arc of human history This complete edition of Generational Mapping of World History is for readers seeking a deeper understanding of the structural rhythms that define civilizations across time including the living continuity of Indigenous peoples and their place in global history [*The Birth and Unfolding of Phases in History*](#) Michael A. Susko,2025-09-10 The Birth and Unfolding of Phases in History From Neolithic to World Pueblo and U S History brings together four major works into a single arc of human time Michael A Susko argues that the rhythm of history is not confined to the rise of empires but begins in the Neolithic with triadic 45 year generations that set the first phases of historical time in motion Using this framework the book explores Neolithic atalh y k as a non empire model of symbolic and generational phasing This Initial work is in progress World history through Egypt Judah Israel Rome and the Medieval Modern era contrasting empire based and prophetic alternatives Ancestral Pueblo history as a more egalitarian path outside empire s mold U S history as a largely empire driven model tempered by ideals of freedom and equality This panoramic view balances empire and non empire trajectories showing how civilizations universalize their visions either through force or through sharing covenant and inclusion Written in accessible language yet grounded in rigorous patterning it invites readers to see history not as inevitable

empire but as a set of choices that continue to shape our present and future **A Rosetta Key for U.S. History** Michael A. Susko,2023-12-21 This work explores a generational history from America's Colonial period to the United States of contemporary times A novel historical approach will rely on generational markers every 15th year rather than yearly astronomical dates This method will make history more accessible and its patterns more apparent Identified from cultures presented in an earlier volume the phasings are 1 Invisible Beginnings 2 Establishment and Testing 3 Novel Consolidation and Opening Up 4 Crisis and Creativity 5 Empire and Inclusion and 6 Rigidification or Renewal This history does not seek to hide or obscure the shadow side of America nor does it fail to present beauty and light especially during the 30s generational phase One discovery prompted by this generational time chart was to more fully consider the importance of New Spain in understanding U.S. history A second and related theme is inclusion of the Indigenous whose influence extends to all phases of American history Come journey with us and experience historical events and people's lives generation by generation and see how they fit into historical phases Such an awareness the author contends will help us to make the generational choice of our times [Astronomical Pulses to History's Phases](#) Michael A. Susko,2025-09-26 Bringing together seven volumes of research Michael A. Susko presents a grand synthesis of astronomical biological and cultural evolution Using a logarithmic model he shows how the universe has unfolded in accelerating pulses from galaxies and planets to the rise of life and symbolic humanity This rhythm of time is then extended through the Neolithic tells and into recorded history where generational phases reveal cultures growing and transforming in their own natural cycles Three distinct measures of time logarithmic pulses triadic generational units and fifteen year historical generations converge to reveal a patterned fabric of change Across billions of years and into the present moment the author demonstrates how time is not a smooth line but a structured unfolding marked by phases of complexity consciousness and cultural renewal The result is both a sweeping map of our past and a reflection on the nature of time itself its rhythms its surprises and its promise of transformations yet to come

environment He charts the growth of a distinctly American art culture Back cover **Journal of the Society of Architectural Historians** Society of Architectural Historians,1996 Includes special issues *Regionalism and the Humanities* Timothy R. Mahoney,Wendy Jean Katz,2008 Although the framework of regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada Whether considering a writer s connection to region or the idea of place in exploring what is meant by regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the fundamental premise of the humanities the search to understand what it means to be human *American art directory* ,1995 **American Glamour and the Evolution of Modern Architecture** Alice T. Friedman,2010 Alice Friedman argues that the aesthetics of mid 20th century modern architecture reflect an increasing fascination with glamour a term used in those years to characterise objects people experiences as luxurious expressive even magical [The Making of Miami Beach, 1933-1942](#) Jean-François Lejeune,Lawrence Murray Dixon,Allan T. Shulman,Bass Museum of Art,2000 Yet what makes Miami Beach remarkable is not only the way in which Dixon and his colleagues used Art Deco to meet the local need for lower cost resort architecture but the way in which they adapted the style to incorporate local motifs and historical styles The result is the unique architecture of South Beach as it is now known the largely restored international vacation hotspot and the country s first twentieth century architectural district to be placed on the National Register of Historic Places
