Svi Shapiro, David E. Purpel, 2004-09-22 This text reader brings together powerful readings that critically situate issues of education in the context of the major cultural moral political economic ecological and spiritual crises that confront us as a nation and a global community It provides a focus and a conceptual framework for thinking about education in light of these issues Readers are exposed to the thinking of some of the best and most insightful social and educational commentators Critical Social Issues in American Education Democracy and Meaning in a Globalizing World Third Edition is intended to work on two levels First it helps readers to develop an awareness of how education is connected to the wider social structures of cultural political and economic life Second it encourages not only a critical examination of our present social reality but also a serious discussion of alternatives of what a transformed society and educational process might look like The editors goal is to deliberately engage readers in connecting the work of teachers to an ethically committed politically charged pedagogy The assumption on which they base the text is that educators must see their work as inextricably linked to the broader conflicts stresses and crises of the social world it is not otherwise possible to make sense of what is happening educationally What happens in school or as part of the educational experience reflects expresses and mediates profound questions about the direction and nature of the society we inhabit The text is organized thematically into

five sections which address respectively social justice and democracy consumerism culture and public education marginality and difference moral and spiritual perspectives on education and globalization and education Each section is preceded by a brief essay that introduces the readings This Third Edition includes many new readings and addresses issues that have more recently emerged as especially significant such as concerns about the implications of globalization and the post 9 11 world commercialism violence and the ever increasing influence of high stakes testing This compelling text is relevant for a wide range of courses in educational foundations educational policy curriculum studies and multicultural education that address the social context of education cultural and political change and public policy

Deculturalization and the Struggle for Equality Joel Spring, 2024-11-25 Joel Spring's history of school policies imposed on dominated groups in the United States examines the concept of deculturalization the use of schools to strip away family languages and cultures and replace them with those of the dominant group The focus is on the education of dominated groups forced to become citizens in territories conquered by the United States including Native Americans African Americans Asian Americans Latino Americans and Hawaiians In seven concise thought provoking chapters this analysis and documentation of how education is used to change or eliminate linguistic and cultural traditions in the United States looks at the educational legal and social construction of race and racism in the United States emphasizing the various meanings of equality that have existed from colonial America to the present Providing a broader perspective for understanding the denial of cultural and linguistic rights in the United States issues of language culture and deculturalization are placed in a global context Revised throughout to reflect the national events and shifts in the field since the prior edition the 10th Edition includes updated discussion around race and its impacts on college campuses exploration of the refugee crises new material on Native American Alaskan and Hawaiian boarding schools and expanded discussion of debates over cultural and racial identity

Deculturalization and the Struggle for Equality JOEL. SPRING, 2024-11-06 Joel Spring's history of school policies imposed on dominated groups in the United States examines the concept of deculturalization the use of schools to strip away family languages and cultures and replace them with those of the dominant group The focus is on the education of dominated groups forced to become citizens in territories conquered by the United States including Native Americans African Americans Asian Americans Latino Americans and Hawaiians In seven concise thought provoking chapters this analysis and documentation of how education is used to change or eliminate linguistic and cultural traditions in the United States looks at the educational legal and social construction of race and racism in the United States emphasizing the various meanings of equality that have existed from colonial America to the present Providing a broader perspective for understanding the denial of cultural and linguistic rights in the United States issues of language culture and deculturalization are placed in a global context Revised throughout to reflect the national events and shifts in the field since the prior edition the 10th Edition includes updated discussion around race and its impacts on college campuses exploration of the refugee crises new material on Native American Alaskan and

Hawaiian boarding schools and expanded discussion of debates over cultural and racial identity **Political Agendas for Education** Joel Spring, 2010-05-26 Bringing up to date Joel Spring's ongoing documentation and analysis of political agendas for education in the US the fourth edition of *Political Agendas for Education* focuses on the Republican and Democratic parties in the 2008 national election and post 2008 election era considered within the context of the evolution of the Republican and Democratic education agendas **Math Education for America?** Mark Wolfmeyer, 2013-12-04 *Math Education for America* analyzes math education policy through the social network of individuals and private and public organizations that influence it in the United States The effort to standardize a national mathematics curriculum for public schools in the U S culminated in 2010 when over 40 states adopted the Common Core State Standards for Mathematics Rather than looking at the text of specific policy documents this book complements existing critical reviews of the national math education curriculum by employing a unique social network analysis Breaking new ground in detailing and theorizing the politics of math education Wolfmeyer argues that the private interests of this network are closely tied to a web of interrelated developments human capital education policy debates over traditional and reform pedagogy the assumed content knowledge deficit of math teachers and the proliferation of profit driven educational businesses By establishing the interconnectedness of these interests with the national math education curriculum he shows how the purported goals of math education reform are aligned with the prevailing political agendas of this social network rather than the national interest
