American Airlines Star Alliance:

Lufthansa's Strategic Challenges when a Star Alliance Member Exits Andrea Utz, 2015-02-13 Bachelor Thesis from the year 2013 in the subject Business economics Business Management Corporate Governance grade 1 9 language English abstract The airline sector is a viable and fast changing industry This became evident especially after the announcement of the fusion between the insolvent company American Airlines and US Airways in February 2013 This begs for the question how Lufthansa will be affected as a member of Star Alliance after the exit of US Airways The thesis will analyse Lufthansa's competitive advantage within the dynamic airline industry based on a strategic analysis of its internal and external environment Furthermore with the help of a scenario analysis potential future situations will be examined and underlined by a management interview given by a CEO from the airline industry Summing up even if US Airways exited Star Alliance it has no substantial influence on the competitive advantage of Lufthansa as a member of Star Alliance The study concludes it is very important to find a new partner in order to gain access to the growing emerging markets especially in the Middle East where demand and hubs will grow significantly over the next decades *Airline Choices for the Future* Kostas Iatrou, Mauro Oretti, 2016-03-16 *Airline Choices for the Future* From Alliances to Mergers offers an up to date assessment of the industry as it stands today delivering a comprehensive insight into how the world of airline alliances is changing and how the merger phenomenon is likely to fit into the new scenario The purpose of this book is twofold Firstly it outlines the evolution and the reasons behind alliances between international air carriers the alliances track records and the way they have affected airlines and the air transport industry Secondly drawing on past and more recent developments in the industry it examines the experiences airlines involved in cross border mergers have gone through and the advantages and difficulties they have come across Alliances and mergers are presented from both the airline and the consumer perspective The book provides a balanced account of where mergers and alliances have taken the industry to date bridging the gap between merger theory and implemented practices and strategies It also identifies the challenges alliances and cross border mergers have faced and highlights the key forces affecting airline development Theoretical evidence is supplemented by data collected via surveys and interviews with airline executives aviation experts consultants and regulatory bodies New Patterns of Industrial Globalisation Cross-border Mergers and Acquisitions and Strategic Alliances OECD, 2001-07-25 This book presents the latest trends and drivers of globalisation in major OECD countries and their implications for industrial performance and government policies It analyses regional and sectoral trends in telecommunications automobiles steel pharmaceuticals airlines and financial services **United States/United Kingdom Bilateral Negotiations** United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Aviation, 1998 Strategies for Sustainable Air Services Development Chrystal Zhang, Kareem Yarde, 2024-12-02 Routes are arguably the most valuable of airline assets Although widely practised in the industry the process of developing air connectivity has drawn very limited

academic research However this book fills in this knowledge gap Strategies for Sustainable Air Services Development unwraps the process of decision making in establishing airlinks from the airline s perspective as well as the roles of various stakeholders including airports tourism authorities tourist destination organizations local investment agencies and regional development agencies Developed from rigorous academic research and analysis of a myriad of data sources that include interviews surveys and workshops with industry practitioners it presents a framework of best practices that will serve as a toolkit and central resource point for industry professionals to initiate and establish airlinks to benefit air travellers and society at large The first book of its kind it presents the most comprehensive assessment available to date of all the intricacies involved in developing airlinks The book will equip senior and middle managers practitioners policymakers and students with the practical skills and tools required to develop and design airlinks for the benefit of all stakeholders *Air Transportation Industry* Edward Majewski, Konrad Stasiczak, Sonia Huderek-Glapska, Łukasz Olipra, Wojciech Augustyniak, 2024-10-16

Air Transportation Industry considers the influence of political legal economic social and technological factors on the developments in the industry It provides a brief historical background of the air transport industry the determinants of the changes in the airline business and adaptation processes that resulted in the evolution of business models and structural changes in the industry Utilizing a unique database containing the characteristics of more than 16 000 air carriers worldwide the book discusses key findings related to changes in the transport capacity of airlines operating at different points in time including the length of the lifecycle and reasons for termination of activity types and geographical scope of operations It also explores the impacts of global and regional scale legal regulations The book will interest air transportation and airport operations researchers It can also serve as a reference for management and operations transportation students in logistics air transportation and economics courses **International Strategic**
