American Contempt for Liberty Walter E. Williams, 2015 A collection of essays on a range of controversial issues surrounding race education the environment the United States Constitution and more *Neoliberalism and Race* Lars Cornelissen, 2025-10-14 Lars Cornelissen argues that the category of race constitutes an organizing principle of neoliberal ideology Using the methods of intellectual history and drawing on insights from critical race studies Cornelissen explores the various racial constructs that structure neoliberal ideology some of which are explicit while others are more coded Beginning in the interwar period and running through to recent developments *Neoliberalism and Race* shows that racial themes have always pervaded neoliberal thinking The book s key argument is that neoliberal thought is constitutively racialized its racial motifs cannot be extracted from neoliberalism without rendering it theoretically and politically incoherent The book aptly explores a wide variety of racial constructs through the structure of neoliberal ideology deconstructing the conceptualizations in the works of landmark thinkers such as Ludwig von Mises Friedrich Hayek Peter Bauer Thomas Sowell Charles Murray and others from the early twentieth century to the present In this original perhaps controversial critique Cornelissen asserts that neoliberal thinkers were not just the passive recipients of racial discourse but also directly impacted it *Where the Hell is Middle America?* Terrence Stone, 2024-08-31 Are you tired of the political discord between the two major political parties and feel a deep rift among the electorate Well the author does and dives into our current divisive political climate and its impact on our social climate And he places much of the blame on our politicians for this disharmony While self identifying as fiscally conservative but more socially liberal the author previously felt he was a lifelong moderate Republican However he has become disenchanted with the GOP of late He examines many of the typically divisive topics that often distinguish Republicans and Democrats Exploring other political parties was also enlightening and now realizes he is more moderate centrist than previously thought Today s politicians often pander to their extremist ends rarely considering the middle third of the electorate that identify as moderate If a formidable moderate centrist candidate could wrest away the dominance of the two major parties by providing some competition it could force the Republican and Democratic politicians to act better After all competition in the marketplace can help bring down prices for our betterment wouldn t more competition in the political arena also be for our betterment The author shows that some middle ground may be met by offering some simple solutions to often complex political topics If more of the electorate could lean towards the middle further away from the far right and left extremist ends then we could gain additional support for more moderate major party candidates or even prevalent third party candidates **Full Faith and Credit: The National Debt, Taxes, Spending, and the Bankrupting of America** Alan Axelrod, 2013-09-03 What is the national debt Who loses from it Who profits from it Why is it a greater threat to America than international terrorism In direct non partisan language this book follows the money and finds the answers Conservative Liberal Republican Democrat Libertarian Socialist Each has a laundry list for America on

which the slow motion cataclysm of unsustainable national debt is but a lonely bullet point among dozens of others Full Faith and Credit zooms in on that point liberates it from partisan programs and political orientations expands it explores it and explains it The book examines key dimensions of our national life from a military industrial complex more menacing than even Eisenhower could have imagined to a Tower of Babel tax code that covertly translates taxes into secret subsidies With the aim of converting bystanders into informed advocates of change Full Faith and Credit is rich with eye opening data surprising case studies and you can't make this stuff up examples For every official the United States public has elected its government supports 5000 unelected employees 1 billion is the cost to destroy 16 billion in ammunition unneeded by the U S military 20 973 890 000 is the total taxpayer cost to the Treasury of gambling losses deducted by millionaires With easy to follow graphs and charts as well as 20 uproarious full color editorial cartoons drawn from the prior work of Pulitzer Prize winning artist Michael Ramirez Full Faith and Credit locates the tipping point of the 19 4 trillion and counting national debt crisis and offers ideas on how to fix it
