Sponsorship: For a Return on Investment Guy Masterman, 2012-06-14 Sponsorship is both a critical communications tool for sponsors as well as a fundamental revenue stream for rights owners. Market leaders use sponsorship widely and arguably more successfully than any other communications tool to achieve competitive advantage whilst events of all sizes depend on sponsorship just to exist. As the importance of sponsorship has increased the demands of it have risen too. Now sponsors seek measurable return on their investment. **Sponsorship For a Return on Investment** provides a unique insight on the use of sponsorship for a return on investment and will appeal to practitioners and undergraduate and postgraduate students alike. It builds a conceptual framework for the development, planning, implementation and evaluation of strategies for sport, arts, music and community sponsorship and from two perspectives. For rights owners, the importance of effectively acquiring and then developing a bespoke approach for the recruitment of sponsors for effective sponsorship programmes. For sponsors, a better understanding of how sponsorship can be used for successful integrated marketing communications. A broad selection of examples and case studies from around the world are provided in order to demonstrate the importance of sponsorship on an international basis. This book is a vital resource for both students and practitioners. **International**

Management in Service Firms Dirk Klimkeit, Pengji Wang, Huiping Zhang, 2024-05-22 This textbook examines how service firms manage their international operations. For the first time it brings together insights from the fragmented literature on this subject into an accessible textbook. Further, it is unique in its focus on service firms' internationalization and international management. Beginning with an overview of the international environment in which service firms operate, it subsequently describes multinational service firms and their internationalization processes, strategies and organization. Unlike most texts on international services, the book goes beyond internationalization to address the ongoing management of service firms. It not only addresses functions such as global service marketing, financial management and human resource management but also discusses aspects such as global account management, global service delivery and international project management as well as the topical issue of managing distributed virtual teams. A dedicated chapter focuses on offshore shared services and business process outsourcing. These chapters are complemented by a discussion on international corporate governance and corporate social responsibility. The book is intended for students preparing for international careers in the service sector. Each chapter includes case studies, illustrations, highlighted definitions, a chapter summary and exercises. **Changing Faces**
