## American Ghosts A Memoir:

American Ghosts David Plante,2005 From a critically acclaimed novelist comes a masterful memoir in the tradition of Edmund White s A Boy s Own Story David Plante was born and brought up in a French speaking Catholic parish in Providence Rhode Island that was like an isolated fortress in Yankee New England The nuns of the parish school wore long black veils and taught the children that they lived in le petit Canada where they preserved the beliefs of le grand Canada a country of suffering eased by miracles This invisible country with its history of long lost French North America of the Jesuit missionaries devoted to converting the Indians of the hard lives of fur traders and woodsmen and the Indian squaws who became their wives was made more present to him than the visible country he lived in His part Blackfoot father was stoic and silent his mother lively and garrulous but trapped and at the center of their difficult lives was a deep dark God The ghosts of the parish haunted David Plante long after he left home lost his belief in any god and found the center of his life both in love and in writing However free of his past he became in his maturity his constant fear remained that the God he was brought up with would appear to him and possess him Finally Plante came to terms with this possessive God by coming to terms with his ancestry a stunning spiritual and physical journey that brings him back to Providence to Canada to France and finally to a new understanding of God

**The Ghosts Within** Janna Odabas,2018-11-09 The ghost as a literary figure has been interpreted multiple times spiritually psychoanalytically sociologically or allegorically Following these approaches Janna Odabas understands ghosts in Asian American literature as self reflexive figures With identity politics at the core of the ghost concept Odabas emphasizes how ghosts critically renegotiate the notion of Asian America as heterogeneous and transnational and resist interpretation through a morally or politically preconceived approach to Asian American literature Responding to the tensions of the scholarly field Odabas argues that the literary works under scrutiny openly play with and rethink conceptions of ghosts as mere exotic ethnic ornamentation

Lynch,2022-11 *Outback and Out West* examines the ecological consequences of a settler colonial imaginary by comparing expressions of settler colonialism in the literature of the American West and Australian Outback. Tom Lynch traces exogenous domination in both regions which resulted in many similar means of settlement including pastoralism, homestead acts, afforestation efforts and bioregional efforts at belonging. Lynch pairs the two nations texts to show how an analysis at the intersection of ecocriticism and settler colonialism requires a new canon that is responsive to the social, cultural and ecological difficulties created by settlement in the West and Outback. *Outback and Out West* draws out the regional Anthropocene dimensions of settler colonialism considering such pressing environmental problems as habitat loss, groundwater depletion and mass extinctions. Lynch studies the implications of our settlement heritage on history, art and the environment through the cross national comparison of spaces. He asserts that bringing an ecocritical awareness to settler colonial theory is essential for reconciliation with dispossessed Indigenous populations as well as reparations for ecological damages as we work to decolonize engagement with and literature about these places    **The Archaeology of the Yakima Valley** Harlan Ingersoll Smith,1910    **Host bibliographic record for boundwith item barcode 89058448275** ,1910
