American Higher Education in Crisis? Goldie Blumenstyk, 2015 Disinvestment by states has driven up tuition prices and student debt has reached an all time high Americans are questioning the worth of a college education even as studies show how important it is to economic and social mobility [The Palgrave Handbook of Crisis Leadership in Higher Education](#)

Discernment Karim Dharamsi, David Ohreen, 2021-04-06 It seems we are awash in information From the moment we wake until we turn over our phones at night we are bombarded with images and messages news and information from a confounding number of sources But as the amount of information available to us increases ever more rapidly its quality and reliability seem less credible Russian troll bots 4chan Breitbart and Rebel Media challenge our credulity but they do so by mimicking aesthetic registers consumers expect of traditional media outlets Moreover traditional news sources both privately owned and public broadcasters already weakened by eroding revenue cuts to budgets and shifting demographics are under sustained attack from those who wish to damage their ability to hold powerful people to account Instead of a multi perspectival approach which seeks to report to the public the many ways to address a particular issue taking the reporter s role as neutral with regard to outcome fake or ideologically driven news sources compete for audience attention and faithfulness often using emotion to rally people toward a certain political cause or issue Academics meanwhile have their work attacked and undermined by people or groups seeking to advance political or economic interests They are told they too are political actors one more voice in a messy public arena instead of a font of reliable information and knowledge While academics continue to believe that their work at least in part enhances our understanding of the world and informs debate how do we know that their conclusions are indeed more reliable than their critics in the post truth era *Between Truth and Falsity Liberal Education and the Arts of Discernment* will aid academics and students seeking to better grasp the value of liberal education within this post truth era It seeks to advance pedagogical ideas in order to fight factual erosion and reinforce intellectual capacities that are able to critically assess the chaos of information enveloping all segments of society

This volume will therefore be of particular interest to academics and university educators working in higher education graduate students theorizing the nature of media and the role of higher education undergraduates studying liberal education and the nature of the university and those thinking about liberal education Beyond Education Eli Meyerhoff, 2019-07-23 A bold call to deromanticize education and reframe universities as terrains of struggle between alternative modes of studying and world making Higher education is at an impasse Black Lives Matter and MeToo show that racism and sexism remain pervasive on campus while student and faculty movements fight to reverse increased tuition student debt corporatization and adjunctification Commentators typically frame these issues as crises for an otherwise optimal mode of intellectual and professional development In Beyond Education Eli Meyerhoff instead sees this impasse as inherent to universities as sites of intersecting political struggles over resources for studying Meyerhoff argues that the predominant mode of study education is only one among many alternatives and that it must be deromanticized in order to recognize it as a colonial capitalist institution He traces how key elements of education the vertical trajectory of individualized development its role in preparing people to participate in governance through a pedagogical mode of accounting and dichotomous figures of educational waste the dropout and value the graduate emerged from histories of struggles in opposition to alternative modes of study bound up with different modes of world making Through interviews with participants in contemporary university struggles and embedded research with an anarchist free university Beyond Education paves new avenues for achieving the aims of an alter university movement to put novel modes of study into practice Taking inspiration from Black Lives Matter Occupy Wall Street and Indigenous resurgence projects it charts a new course for movements within against and beyond the university as we know it **Voices from Women Leaders on Success in Higher Education** Barbara Cozza, Ceceilia Parnter, 2022-02-24 This book assists aspiring and current women leaders on how to advance into higher education leadership roles Drawn from research and the lived experiences of women and non binary people in higher education leadership this book serves as a guide in understanding the gender disparity in higher education leadership and how women leaders forge pathways to promotion and success through systemic barriers obstacles and a lack of representation A critical review of traditional leadership theory offers an opportunity to reimagine how effective leadership is framed and valued in higher education Chapter authors and case studies explore the intersections of multiple identities and their impacts on leadership through lenses including institutional type functional areas ability gender identity sexuality race and ethnicity Focusing on a bridge from theory to practice that is designed to empower and inspire women leaders at all levels of the spectrum this book is ideal reading for higher education scholars students and faculty aspiring to become leaders Higher Education in Austerity Europe Jon Nixon, 2017-09-21 The financial crisis of 2007 2008 prompted governments across Europe to adopt austerity measures aimed at the reduction of their escalating budget deficits Higher Education in Austerity Europe explores how the resulting cuts in public expenditure together with the increasing reliance on the privatisation of services have impacted on

higher education directly through the reduction of public sector provision and indirectly as a result of the social and political consequences of that reduction. Moreover, it explores how the effects of these economic policies have differed markedly across the national regions of Europe with the result that inequality has increased significantly both within and between national regions and this in turn has led to social and political dislocation within and across communities. It is only by viewing higher education within this broader context that we can begin to understand the full implications of the austerity measures introduced over the last ten years. Jon Nixon draws together leading scholars to delve into the complexity of impact and response generated by these measures. Part 1 focuses on cross-European perspectives, Part 2 on the impact of austerity measures within national systems and Part 3 on new perspectives and possibilities. The volume also includes considered responses from outsiders by academics located in Asia, Australia and the USA, providing an additional dimension to the analysis. As well as analysing the full impact of austerity measures across some of the worst hit national regions of Europe, the contributors also identify openings and possibilities for renewal.

Malhotra, 2022-03-01

The one book you need to make a difference in the world. Social innovation and social entrepreneurship are rising forces. But it won't be easy: social innovation is complicated. Solutions require the active collaboration of constituents across the worlds of government, business, and nonprofits. Social innovators and entrepreneurs need a handbook to guide them on the journey to changing the world. This is that guide. Contributions from a who's who of the smartest thinkers and most experienced practitioners in the field provide the knowledge you need to succeed as a social innovator. Topics cover the waterfront, including high performance leadership as a driver of social change, design for extreme affordability, scaling social innovation, corporate decarbonization, social innovation and healthcare in the postpandemic world, donor advised funds and impact investing. Choosing College Michael B. Horn, Bob Moesta, 2019-08-20

Cut through the noise and make better college and career choices. This book is about addressing the college choosing problem. The rankings, metrics, analytics, college visits, and advice that we use today to help us make these decisions are out of step with the progress individual students are trying to make. They don't give students and families the information and context they need to make such a high stakes decision about whether and where to get an education. *Choosing College* strips away the noise to help you understand why you're going to school, what's driving you, what you're trying to accomplish. Once you know why, the book will help you make better choices. The research in this book illustrates that choosing a school is complicated. By constructing more than 200 mini

documentaries of how students chose different postsecondary educational experiences the authors explore the motivations for how and why people make the decisions that they do at a much deeper causal level By the end you ll know why you re going and what you re really chasing The book Identifies the five different Jobs for which students hire postsecondary education Allows you to see your true options for what s next Offers guidance for how to successfully choose your pathway Illuminates how colleges and entrepreneurs can build better experiences for each Job The authors help readers understand not what job students want out of college but what Job students are hiring college to do for them **Journal of American Culture** ,1989 **Leadership Strategies for Promoting Social Responsibility in Higher Education** Enakshi Sengupta,Patrick Blessinger,Craig Mahoney,2020-08-03 This book explores the theoretical underpinnings and interventions of CSR practised by universities across the globe and the role their leadership plays in promoting this It provides international examples from the US Africa Europe and Asia with implications and insights for university leadership staff and students **The Evangelist** ,1899 Saturday Review ,1969 *University* ,1966 *Black Issues in Higher Education* ,2003-09 Core Concepts in Health Paul M.
