[Faces of Geometry](#) Paola

Magnaghi-Delfino, Giampiero Mele, Tullia Norando, 2021-04-03 The volume reports on interdisciplinary discussions and interactions between theoretical research and practical studies on geometric structures and their applications in architecture, the arts, design, education, engineering, and mathematics. These related fields of research can enrich each other and renew their mutual interest in these topics through networks of shared inspiration and can ultimately enhance the quality of geometry and graphics education. Particular attention is dedicated to the contributions that women have made to the scientific community and especially mathematics. The book introduces engineers, architects, and designers interested in computer applications, graphics, and geometry to the latest advances in the field with a particular focus on science, the arts, and mathematics education
