Independence Lost Kathleen DuVal, 2016-04-12 A Pulitzer Prize

winning historian offers a significant new global perspective on the Revolutionary War with the story of the conflict as seen through the eyes of the outsiders of colonial society Winner of the Journal of the American Revolution Book of the Year Award Winner of the Society of the Cincinnati in the State of New Jersey History Prize Finalist for the George Washington Book Prize Over the last decade award winning historian Kathleen DuVal has revitalized the study of early America's marginalized voices Now in Independence Lost she recounts an untold story as rich and significant as that of the Founding Fathers the history of the Revolutionary Era as experienced by slaves American Indians women and British loyalists living on Florida's Gulf Coast While citizens of the thirteen rebelling colonies came to blows with the British Empire over tariffs and parliamentary representation the situation on the rest of the continent was even more fraught In the Gulf of Mexico Spanish forces clashed with Britain's strained army to carve up the Gulf Coast as both sides competed for allegiances with the powerful Chickasaw Choctaw and Creek nations who inhabited the region Meanwhile African American slaves had little control over their own lives but some individuals found opportunities to expand their freedoms during the war Independence Lost reveals that individual motives counted as much as the ideals of liberty and freedom the Founders espoused

Independence had a personal as well as national meaning and the choices made by people living outside the colonies were of critical importance to the war's outcome DuVal introduces us to the Mobile slave Petit Jean who organized militias to fight the British at sea the Chickasaw diplomat Payamataha who worked to keep his people out of war New Orleans merchant Oliver Pollock and his wife Margaret O'Brien Pollock who risked their own wealth to organize funds and garner Spanish support for the American Revolution the half Scottish Creek leader Alexander McGillivray who fought to protect indigenous interests from European imperial encroachment the Cajun refugee Amand Broussard who spent a lifetime in conflict with the British and Scottish loyalists James and Isabella Bruce whose work on behalf of the British Empire placed them in grave danger Their lives illuminate the fateful events that took place along the Gulf of Mexico and in the process changed the history of North America itself Adding new depth and moral complexity Kathleen DuVal reinvigorates the story of the American Revolution Independence Lost is a bold work that fully establishes the reputation of a historian who is already regarded as one of her generation's best Praise for Independence Lost An astonishing story Independence Lost will knock your socks off To read this book is to see that the task of recovering the entire American Revolution has barely begun The

New York Times Book Review A richly documented and compelling account The Wall Street Journal A remarkable necessary and entirely new book about the American Revolution The Daily Beast A completely new take on the American Revolution rife with pathos double dealing and intrigue Elizabeth A Fenn Pulitzer Prize winning author of Encounters at the Heart of the World Burchard de Volder and the Age of the Scientific Revolution Andrea Strazzoni,2019-11-18 This monograph details the entire scientific thought of an influential natural philosopher whose contributions unfortunately have become obscured by the pages of history Readers will discover an important thinker Burchard de Volder He was instrumental in founding the first experimental cabinet at a European University in 1675 The author goes beyond the familiar image of De Volder as a forerunner of Newtonianism in Continental Europe He consults neglected materials including handwritten sources and takes into account new historiographical categories His investigation maps the thought of an author who did not sit with an univocal philosophical school but critically dealt with all the major philosophers and scientists of his age from Descartes to Newton via Spinoza Boyle Huygens Bernoulli and Leibniz It explores the way De Volder s un systematic thought used rejected and re shaped their theories and approaches In addition the title includes transcriptions of De Volder s teaching materials disputations dictations and notes Insightful analysis combined with a trove of primary source material will help readers gain a new perspective on a thinker so far mostly ignored by scholars They will find a thoughtful figure who engaged with early modern science and developed a place that fostered experimental philosophy Histoire Critique Et Militaire Des Guerres de la Revolution: Campagne de 1793 Antoine Henri baron de Jomini,1819 The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace,1969
