## **Course Description:**

This course is designed to provide a college-level experience and preparation for the AP Exam in May. An emphasis is placed on interpreting documents, mastering a significant body of factual information, and writing critical essays. The AP U.S. History course focuses on the development of historical thinking skills (chronological reasoning, comparing and contextualizing, crafting historical arguments using historical evidence, and interpreting and synthesizing historical narrative) and an understanding of content learning objectives organized around seven themes, such as identity, peopling, and America in the world. In line with college and university U.S. History survey courses' increased focus on early and recent American and decreased emphasis on other areas, the AP U.S. History course expands on the history of the Americas from 1491 to 1607 and from 1980 to the present. It allows teachers flexibility across nine different periods of U.S. History to teach topics of their choice and depth.
